WORLD HAPPENINGS
BRIEFLY TOLD

Figures issued by the Bureau of Statistics show Canadian unemployment further decreased.

African hieroglyphs discovered north of Malakal, Africa, point to a very old civilization which has been lost for centuries.

Failure of Raoul Amundsen to carry out his plans for a flight across the North Pole was due to his plane being too light.

Maurice Noonan, thought to have been the oldest life saver in point of service on Sable Island when he retired 10 years ago after 65 years' duty, died at Dartmouth, N.S., aged 90 years.

Thirty-five fur coats valued at \$4,000 were stolen from a Yonge Street store in Toronto in a robbery which is believed to have not lasted more than two minutes.

The first known case of an air liner pilot striking for higher wages occurred at Croydon airfield when a fight was delayed pending adjustment of the difficulty.

Hon. Mary Ellen Smith, former member of the Government of British Columbia and at present member for Vancouver City, has gone to Britain on a federal immigration mission.

The British embassy at Washington, thought to be kept dry, out of regard for United States prohibition law, Dr. J. H. Rushbrooke, of London, Baptist Commissioner for Europe, told the Baptist World Alliance.

The U.S. Chamber of Commerce has joined with the Wheat Council of the United States in a tentative agreement under which a joint committee will seek a solution of the wheat growers' problems.

The discovery by two Italian doctors of scarlet fever bacilli is reported by the newspapers. The physicians claim many cases of the disease have been cured by them through the injection of a serum.

A party of German scientists, headed by Hans Ludendorff, brother of the general, has sailed from Hamburg for Mexico to make observations of the solar eclipse September 10. "Three minutes of darkness or rain would make their trip a failure."

The House of Lords passed, without amendment, the third reading of Lady Astor's bill, prohibiting the sale of intoxicating liquors to any person under 18 years of age. The measure which has already passed the Commons, now becomes law, provided the assent of the Crown is given.

Pear Trees in Manitoba

Expected that in a Few Years Province Will Have Many Pear Orchards

F. L. Skinner, of Dropmore, who is known as "Manitoba's plant wizard," on account of his researches in horticulture, has succeeded in raising at his home a pear tree from imported seeds, and as it promises to be a hardy plant, is now confident that in a few years Manitoba will have many pear orchards, although this tree is not indigenous on the American continent. The seeds from which the tree has been raised were brought to the United States from Pukhien, Korea, in 1919 and planted at the Arnold arboretum, Boston, Mass. This latter institution is famous for its pears, but to well known horticulturists, who support its work with large financial contributions, it supplies specimens for further development.—Free Press.

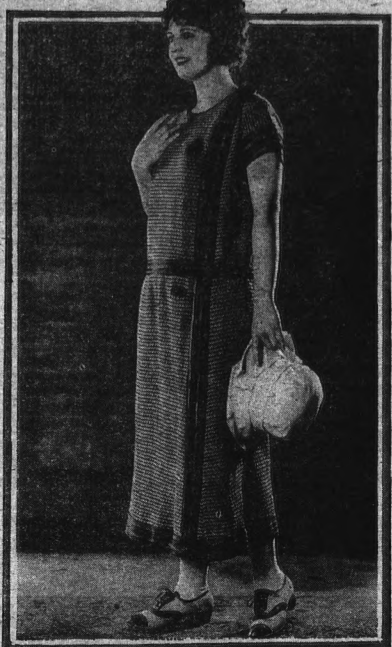

Such is Fame
"Who fiddled while Rome burned" asked the schoolmaster. "Hector, sir." "No," said the school teacher. "Tower, sir." "Tower? What do you mean?" It was Nero. "Well, sir, I knew it was somebody's dog's name."—Los Angeles Times.

Mrs. J. W. Sampson
Tells How Cuticura
Healed Her Scalp

"I was troubled for years with a dry scalp and dandruff. There were small scales on my scalp and it itched and burned a great deal. My hair was very dry and lifeless, and fell out when I combed it. I began using Cuticura Soap and Ointment and after a few applications could see an improvement. I continued using them for three months, was healed." (Signed) Mrs. J. W. Sampson, 4705-32nd Ave. S., Seattle, Wash.

Keep your skin clear by using Cuticura Soap, Ointment and Tablets for every-day toilet purposes. Touch pimples and blemishes with Cuticura Ointment; bathe with Cuticura Soap and hot water. Dry and dust lightly with Cuticura Talcum, a powder of fascinating fragrance.

Sample Free by Mail. Write for Cuticura Soap, Ointment and Tablets. Address: The Cuticura Company, P.O. Box 1024, Portland, Me., U.S.A.

Youth Takes To The Knitted Frock For
The Sheer Comfort Of The Thing

The one-piece affair is so much more comfortable and there is nothing about it to fly apart. And aside from other things its charm is undeniable, so 'tis the one-piece frock for the lass who would a-sporting go, unless sport is one that requires less strenuous exertion than batting a ball on the fly.

And the frock is knitted! This fact adds, as every woman knows, to the comfort of a garment, in which one intends to exercise.

Talking about knitted wear, the softest is by far the most popular garment of its sort being worn this season. It is taking the place of the favored Tuxedo jacket of a spring ago.

HEALTH FOR WEAK
DESPONDENT PEOPLE

From End to End of Canada Dr. Williams' Pink Pills Oiling Good Work

There is not a nook or corner in Canada, in the cities, towns, villages and on the farms, where Dr. Williams' Pink Pills have not been used and from one end of the country to the other people sound their praise. You have only to ask your neighbors and they can tell you of some run-down man, suffering from, ailing youth, or unhappy anemic girl who owes their present health and strength to Dr. Williams' Pink Pills. The success of this medicine is due to the fact that it acts directly upon the blood, making it rich and pure, and thus brings new strength to every organ and nerve in the body. Mr. Andrew P. Webb, Melanson, N.S., tells what Dr. Williams' Pink Pills have done for him as follows:—

"I was in a run-down condition from overwork and what the doctor called a nervous breakdown. My sister urged me to try Dr. Williams' Pink Pills. After taking several boxes I improved wonderfully and feel like a different person. I sleep well, eat well, and my nerves are stronger and with confidence I can recommend these pills to all weak, run-down people. If you are suffering from any condition due to poor, watery blood, weak nerves, begin taking Dr. Williams' Pink Pills now, and note how your strength and health will improve. You can get these pills through any dealer in medicine, or they will be sent by mail, post paid, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Italy May Send Emigrants

Ask Mussolini to Support Emigration to Canada Plan

Premier Mussolini recently received General Ricciotti Garibaldi, son of the Italian liberator, and his daughter, Italia, who urged the premier to support the scheme for directing Italian emigration to Canada, which Signorina Garibaldi first presented to him March 25.

The object of the plan is to send to Canada those emigrants who are unable to enter the United States because of the quota restrictions, particularly where the local Italian authorities are ready to give them assistance.

The premier promised to examine the scheme.

Supposed Wireless Records

German wireless telegraphy flashed 51,139 words abroad in one day recently, surpassing all previous records. Thirty-five thousand words were sent to the United States alone, while most of the remainder were sent to Spain, Italy, Russia and Egypt. The bulk of the traffic was from Nauen and at the Berlin station.

The All-British Cable

Trinidad and West Indian Governments Favorable to Scheme

Replying to a question in the House of Commons, W. G. Ormsby-Gore, Under-Secretary for the Colonies, said the Government of Trinidad had accepted the proposals of the British Government in regard to a system of all-British cable communications.

The general attitude of the West Indian Governments concerned was favorable to the scheme, said the under secretary, and if the proposals commended themselves to the Canadian Government it was hoped a decision might be made with the execution of the plan in the coming autumn.

Fresh Supplies in Demand.—Wherever Dr. Thomas' Electric Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of leakage.

Soldiers' Settlement

British Soldiers Command Scheme of Settlements Contradicted

In connection with the Canadian Government's recent decision to place the machinery of the Canadian Soldiers' Settlement Board at the disposal of the British ex-service men practical evidence of the value of this assistance is seen in a letter received by William Jones, the board's London representative, from two English ex-service men who recently emigrated and are now settled at Melior, Saskatchewan. The letter says, among other things: "We have nothing but good to say of the treatment we have received. District Supervisor Dixon has given us invaluable advice and in every way he has proved a friend to us. We can sincerely recommend ex-service men who intend to settle on land to consider carefully the advantages of working under the soldier settlement scheme."

Settlement 7,000 Years Old

Numerous flint implements, bone harpoons, arrowheads, spear-points, chisels and tooth-headed spears have been discovered in the remains of a settlement at Holmgaarden, Denmark. It is estimated the settlement is at least 7,000 years old. Although no human bones have yet been found, the excavators uncovered skeletons of elk, reindeer and other animals under a layer of peat several yards thick.

Back to the Land Movement

German Workers in the Ruhr Adopt Gardening

When the German workers in the Ruhr, following their policy of passive resistance, declined to work for the French and Belgians, they turned in large numbers to market gardening. Sixty thousand railroad employees alone quit work, and many of them turned to field activities.

As a result the district is producing a vast harvest of vegetables and grain, and a real "back-to-the-land" movement is under way.

Miller's Worm Powders seldom fail. They immediately attack the worms and expel them from the system. They are complete in themselves, not only as a worm destroyer, but as a highly beneficial medicine for children, correcting weak digestion and restoring the debilitated system to healthful tone, without which the growth of the child will be retarded and its constitution weakened.

Yukon Gold

Last Year Near Record in Yukon Gold Output

Only once in the history of Canada was the gold production record set in 1922, and that was in 1900, when the Yukon placers reached the peak of their yield. This was made clear when final figures dealing with the gold production for 1922 were made public by the Dominion Bureau of Statistics. It is shown in the report that 1,263,364 ounces of gold were mined in the Dominion during 1922. The value is set at \$26,116,050, an increase of 36 per cent. above the previous year's figures. In 1900 a total of 1,529,057 ounces of gold were mined, valued at \$27,908,163.

Relieves Asthma at Once. If you could read the thousands of unsolicited letters received by the makers from grateful users, you too, would realize the remarkable powers of Dr. D. Y. Kellogg's Asthma Remedy. All cases, incident and chronic, are benefited by this great family remedy. Test it or experiment with it. World's preparations when the genuine Kellogg's can be purchased everywhere.

Demonstrate Water Supply Systems

The Ontario Department of Agriculture is providing a motor truck to tour certain rural districts and demonstrate water supply systems, plumbing equipment and installation methods. The exhibits include an air pressure water system and kitchen and bathroom fixtures for the farm dwelling. One day is spent in each locality visited, and the motor truck is kept as long as the afternoon.

The Herald Wins

Edward K. Bok, the publisher, is offering a prize of \$100,000 to the American citizen who can conceive the most practical plan by which the United States may cooperate with other nations in forwarding the cause of world-peace. The best plan can be stated in five words: Join the League of Nations.—Hamilton Herald.

TO EXPECTANT
MOTHERS

A Letter from Mrs. Smith Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Trenton, Ont.—"I am writing to you in regard to Lydia E. Pinkham's Vegetable Compound. I would not be without it. I have taken it before each of my children was born and afterwards and find it a great help. Before my first was born I had shortness of breath and struggling in my ears. I felt as if I would never pull through. One day a friend of mine told me that the Vegetable Compound had done for her and I have four children now and I always find the Vegetable Compound a great help as it seems to make confident easier."

It is my mother-in-law, Mrs. FRED H. SMITH, Mrs. Smith, Trenton, Ont.

Lydia E. Pinkham's Vegetable Compound is an excellent medicine for expectant mothers, and should be taken during the entire period. It has a general effect to strengthen and tone up the entire system, so that it may work in every respect as a tonic and a means of woman's safety to this fact.

Sir Geo. Foster to Tour West

Will Speak On Behalf Of League Of Nations Society

Sir George Foster, who is a member of the Executive Committee of the League of Nations Society in Canada, has arranged to make an extended tour in Western Canada during the next three months, during which he will address meetings in a number of cities on the objects of the league.

The first address will be delivered in Winnipeg on Aug. 21 or 22, followed by an address at Brandon two days later. He will appear at Regina on Aug. 28 and subsequently at Moose Jaw.

On September 20 Sir George will speak in Vancouver. On October 1, when he commences his homeward journey, he will be heard in Victoria, and there will also be two meetings in Edmonton and one each at Calgary, Saskatoon and Winnipeg.

As at present arranged the general secretary of the society, H. G. Richardson, will precede Sir George for the purpose of assisting the local branches in organizing the meetings and strengthening the society in the various centres.

Sir Robert Borden, President of the League of Nations Society in Canada, received word from Sir Arthur W. Currie, Principal of McGill, accepting the honorary trusteeship of the society.

One hardly ever hears a man with calluses on his hands say the country is going to the dogs.

Trains For Height Record

French Aviator Experiments Under Guidance of Scientist

Sadi LeColin, the French pilot, is after a new altitude record and has already reached 12,000 yards—"fin principe," he has not left the ground. All day he sat in a glass cage like a bug in a bottle while scientists experimented with him. They sent the temperature of his case down to ten below zero, rarified the air he was breathing, and finally fed him from an oxygen tank.

All the time he had to manipulate a miniature set of airplane controls while the scientists watched through the glass "for symptoms of distress. All they saw were a few shivers emanating from the middle of LeColin's fur coat.

The conditions are those that the pilot will find when he goes up to break Macgregor's record. He is using the same coat as the best way of training for his flight and so scientists can see just what can be done in the way of perfecting his equipment.

Will Ship Coal East

Freight Rate Arrived at on Coal from Alberta to Points in Ontario

A freight rate of \$7.00 per ton has been fixed, it is stated by Premier Greenfield, for experimental shipments of Alberta coal to Ontario, over the Canadian National lines. Agreement to this effect has been reached between the Government and the railway authorities, and arrangements will be made at once for the first shipment. The coal will be sent from Drumheller, Braxator, Saunders and other mines on the C.N.R. lines, and will be billed through to various points in Ontario. It is expected that between 4,000 and 5,000 tons will be shipped on this basis.

Under this arrangement the operators will make a price of about \$4.50 per ton, which will enable the coal to be sold in Toronto and other Ontario cities at \$15 or thereabouts.

Hold Court in Arctic

Assistant Commissioner Worsley of the R.C.M.P., has received word at headquarters of the safe arrival at Arviik, in the Mackenzie River delta, Arctic circle, of the judicial party under Judge Dubus of Edmonton, Alta., which travelled north to conduct the trial of the Eskimo charged with the double murder of Corporal Teak of the R.C.M.P., and Mr. Blinder, a Hudson's Bay Company official, some months ago.

WRIGLEY'S

THE FLAVOR LASTS

Tourist traffic to the east has been practically cut off by the rotten condition of the Alberta roads between Cowley and Crow's Nest and it is openly stated that the Minister of Public Works, Alex. Ross, is being influenced by Calgary business men to leave it in that condition so that the tourist traffic will be diverted from the Crow route via Calgary and Banff. Whether this is true or not, little if any work is being done to put the roads in shape. A boycott of Calgary by business men along the Crow would bring quick results. That is the only way to talk to the hog town interest in that city.—Ferne Free Press.

Commenting on the mutual interests of British Columbia and its neighbor, the Calgary Herald says: "The interdependence of Alberta and British Columbia is brought forcibly to one's attention when the numerous and anxious queries from coast province business men concerning crop prospects in this province are noted. In a great and ever-growing sense these two provinces, so unlike in their natural resources, are prosperity partners."

The local tennis club will start their elimination games shortly, the finals to be played about the middle of September.

THE BLAIRMORE ENTERPRISE
Blairmore, Alta., Tues., Aug. 2, 1925

During the year 1924 touring parties were conducted in different districts in the province of Alberta, in the North West Territories, the railway Bed of British Columbia and some boring was done in the provinces of

up to the end of the last calendar year, there had been about 100,000 cubic feet per day, and it is used for domestic and industrial purposes in many of the towns and cities of southern Alberta, particularly in the cities of Medicine Hat and Calgary.

In addition to the gas wells there are six wells producing oil in Alberta all situated in the southern Alberta foothills area, and one in the North West Territories. The output from the wells in southern Alberta is not large, but it has been found to be profitable to operate them.

1925 is also a busy year. Successful drilling in Northern Montana has caused the formation of a number of companies who are drilling on the Canadian side of the boundary on Sunday Night.

HE HAD HELD HIS OWN
Two middle-aged gentlemen passed on the bank of the pond to watch the crowd of merry slaters circling round. "I'd like to join them myself well," said Mr. Rich to his companion. "I haven't had a skate on my foot for more than twenty years, though, and I expect I'd look pretty silly."

"Well I don't know," replied Mr. Little. "I haven't worn skates for longer than that, but I believe I could skate today just as well as I could when I was twenty years old."

"Oh, come now," replied his friend. "You're an active enough man, but it's absurd to say that you could go out there and skate as well as you could when you were a boy."

"I think I could," persisted Mr. Little mildly. "I couldn't skate at all then, and I guess I could do quite as well now."

DID YOU EVER STOP TO THINK?
Did you ever stop to think? That with keen business competition prevailing, most business men are prone to increase their business by increased advertising.

That they realize that the people owe it to themselves and their pocketbooks to read advertisements. That the thrifty people read the advertising columns because it is a business proposition to do so. Advertisements that advertised goods are best by test. They protect the buyer.

That the merchant who builds his business by advertising, quality and service is the successful business man of today. Advertise.

That the consistent advertiser always keeps clean, up-to-date stock. Advertise.

That if he had not lived up to his advertising and his business dealings he would not be in business today. Advertise.

That progressive business men are tanning the sunbathers of their future growth by advertising.

That it pays to be known as a live business man, they are judged by their advertising.

INTERNATIONAL SCENIC HIGHWAY WELL SUPPORTED

(From Calgary Herald)

Assured of the popularity of the new scenic international highway, extending from Salt Lake City to Lake Louise and increased motor traffic through Calgary as a result, Secretary J. H. Hanks, of the Tourist Bureau, returned on Monday afternoon, after attending the conference held at Missoula, Montana, last week.

Stops are being taken at once to get the new route into shape for motor traffic and as it either passes through or is in short distance of the four great natural parts of the Rockies, it would certainly be used to full extent, said Mr. Hanks.

Canadians were honored in the selection of officers for the association organized to boost the highway. J. W. Davidson, of Calgary, was chosen as vice-president, while Mayor J. W. McDonald, of Medicine Hat, Fred Spaulding, of Fernie, and L. S. Crosby, of Banff, were elected to the board of directors. S. Coffe, of Missoula, is the president of the organization.

The new route extends from Salt Lake City, through Missoula, Elkton, crossing the Canadian boundary at the Roosevelt or Gateway. The route will be a mile through Roosevelt if it is possible to get the United States government to have a customs officer stationed there. If this is not possible the route will be changed slightly at this point and will go through the Gateway. After reaching the circle tour of the Canadian Rockies the tourist can go either way around the circle, passing through Calgary on the way.

"This will not only make a good route for people in Western Montana, but will also provide a splendid route for people coming up from California, Salt Lake City, and Yellowstone Park," said Mr. Hanks. "There is a road all the way at the present time, but it will be necessary to make some improvements and the Montana people are making arrangements for the necessary work to be done at the earliest possible date."

"They are very enthusiastic with regard to this highway. While there is a north and south road in eastern Montana, there is no such line over the Rockies in the western side of the state. This highway will also be used by people from Glacier National park so soon as the new road between Deltion and Browning is established. At the present time it is necessary for people crossing the district to do so by rail, but at the present time the highway is under construction, and this will help to increase the motor traffic over the scenic route."

"The meeting at Missoula was well attended, and there was a good deal of enthusiasm displayed regarding the project of establishing this new highway," said Mr. Hanks. Delegates were there from Montana points along the highway, with three representatives from Canada—Mayor McDonald, Mr. Spaulding and Mr. Hanks.

The delegates were cordially welcomed by Governor J. M. Dickson, who stopped over at Missoula especially for the purpose of extending greetings. Everything possible was done by the people of Missoula to make the conference a success and to make the visitors feel at home, said Mr. Hanks.

CANADA'S TRADE
During the fiscal year ended March 31st, Canada's total trade increased by nearly a quarter of a billion dollars. Total trade during the year was \$1,748,536,880, an increase over the previous year of \$246,840,837.

Export trade developed to greater extent. For the twelve months exports of Canadian merchandise were \$832,229,443, or \$191,988,793 over the previous year; imports were \$916,307,437, an increase of \$54,894,956. Foreign merchandise was exported to the value of \$13,944,294.

Two Italian boys from Fernie have taken over Giacomoni's bakery here and will conduct a general high-class bakery business.

COWLEY HAPPENINGS

Mrs. Cowan was a recent visitor to Leithridge.

Lots of tourists are passing through town these days.

Heavy showers have been falling for the last few days.

Mr. and Mrs. Gibson, of Leithridge, are camping at Lee Lake.

Mrs. Jack, who has been teaching at Cereus, is in town now.

Mr. Lighthart, of Calgary, is doing a few odd jobs of masonry in town.

Miss Reta Coates, who is employed in Calgary, is home for her holidays.

Mrs. Murphy and children returned from their Calgary visit this week.

Master David Murphy is spending a two weeks' holiday in the Fishburn district.

A dance was held in Tustian's hall on Thursday evening. Everybody had a good time.

On account of bad weather, the Sunday school picnic, which was to have been held on Wednesday, has been postponed.

A very enjoyable meeting of the Women's Institute was held at the home of Mrs. Jessie Snyder on Thursday evening.

Jimmie Lote, of the Blairmore Hardware staff, is back on the job again after a few week's holiday.

Tenders Requested

TENDERS are requested for the erection and completion of a two room school to be built of brick, hollow tile and concrete at Lee Lake for the Bellevue School Board. The lowest or any tender will not necessarily be accepted. Plans and specifications and full information may be obtained from the Architect.

W. S. Lates A.R.B.A., 48 Canada Life Building, Calgary, Alberta.

A marked cheque on a charitable bank for thirty dollars, must be made out to and deposited with the Architect on taking out the plans and specifications. This will be returned on the Architect getting back the plans and specifications in good condition.

Tenders must be sent to Mr. J. H. Robertson, Box 75, Bellevue, on or before the 8th August 1925.

About twenty thousand delegates, bishops, priests and laymen, representing one third of the communicating membership of the Church of England, gathered in Albert Hall, London, England, on July the 10th for an Anglo-Catholic congress. The avowed object of the congress was to restore the Catholic doctrine in the practice of the Church of England, and it is stated that confessions were heard in the various London churches through the congress.

Society Note.—The deputy attorney-general of the province of Alberta was the guest last week of Mr. and Mrs. Mark Rogers at Waterton Lakes.

Blairmore, Alberta

DECLARATION OF POLICY OF The Moderation League of Alberta

THE MODERATION LEAGUE OF ALBERTA is a permanent organization for the purpose of initiating and supporting legislation that will promote temperance and better the moral, social and economic conditions in the Province of Alberta.

It proposes to support and carry on a movement for the repeal of the present Liquor Act, and substitute therefor a sane, reasonable and practical law.

The League recognizes as fully as any prohibitionist the suffering caused by intemperance and the abuse of strong liquors, and yields to none in anxiety to remove a blot on our civilization.

It is in regard to the measures to be adopted to end this evil that it differs from the prohibitionist.

It believes that victories are won by perseverance and strategy rather than by violently running amuck, and recognizes that prohibitory legislation of any kind can never of itself secure the desired end, and can only result in minimizing respect for law and order, unless the people are behind the legislation, and by the people it means not merely a majority of the people, but practically an unanimous people.

That prohibition begets crime and weakens respect for all laws, we have daily evidence, and to many of us who lived under prohibition in earlier days, this is no new experience.

The Moderation League stands firmly and decisively against the bar. It includes among its leaders men who in the earlier days of this Province, agitated for the abolition of the bar, or in default of that regulations that would kill the treating habit, which they believed would kill the bar.

The League proposes to conduct a clean, honest campaign. It is willing to concede that its opponents (however much it may differ from them) are actuated by the purest motives and a sincere and earnest desire to bring about that condition of things that they consider most beneficial to the people. It only asks that the same treatment be accorded to it. It might be thought unnecessary for this pronouncement to be made, but there are always in every large body of men some rash and hasty individuals who are prone to abuse persons who do not see eye to eye with them, and to impute them to improper motives, in instances of such recklessness in talking, directed against the members of this body have already from time to time appeared in the public press.

"EVERY INCH A KING"

It is significant that the Great War which saw the collapse of autocratic monarchy in Europe, has resulted in the greatly enhanced appreciation of two monarchs who reign with a zealous regard for the constitutional rights of their subjects. King Albert of Belgium, and King George of England, have in many ways doubly endeared themselves to their peoples. There are at least two well-authenticated stories in praise of the true kingliness of their characters.

Some little Belgian children who were playing outside a ruined village stopped on hearing the Angelus and drew near one of the wayside shrines. As they stood beneath it with heads bowed they began to recite the Lord's Prayer. On reaching "Forgive us our trespasses," the voices stopped. It was not long since the Germans had ruined their village; how could they pronounce the words "as we forgive those who—"

For several moments the children were silent. Then they heard a man's voice behind them: "Forgive us our trespasses as we forgive those who trespass against us. And lead us not into temptation." Steadily the strong clear voice led the children through the prayer to the solemn amen.

And when they looked up there was a tall spectacled man in uniform surrounded by a small group of officers. He was their king, Albert the Good, who had proved himself their king by insisting on their saying the greatest prayer of all—the prayer of forgiveness!

The other story is equally touching. Two English Tommies were standing at the corner of a street in a French town. "Have you ever seen King George?" asked one.

"Oh, yes," the other replied. "Many times."

"Ah, but you have never seen him cry, I have. The King once visited our hospital; he went round all the

beds of our ward, talking to every man. At last he came to a poor chap who had lost both legs and one arm—a terrible plight for the poor fellow! The King stood looking at him for a moment and then said, 'My poor lad, how old are you?'

"Eighteen, sir," was the chap's reply.

"My God," cried the King, and he burst into tears!"

During his reign King George has done many things that stand to his credit, but when all else is forgotten those tears will be remembered. They reveal the kindly soul. We may some day dispense with monarchies entirely, but we can never do without the kindly spirit. If kings are to last, they must be "every inch a king."

THE HOGGISH MR. DEMPSEY

The attempt of the little town of Shelby, Montana, to place itself permanently on the map via the pugilistic route was not what could be called a howling success. In fact it is very doubtful if the presence of Mr. Dempsey was worth a tenth of the money which the citizens of that town were obliged to extract from their own pockets in order to see Messrs. Dempsey and Gibbons perform. Dempsey, it will be remembered, was the gentleman who found it inconvenient to fight in the trenches for \$1 a day, but who now demands something like \$300,000 for performing a few minutes in the ring. Dempsey and his manager Kearns are trusting mortals. They showed it when they insisted upon being paid down to the last cent before staging the fight. Then followed a sense of sordid haggling. Dempsey finally agreeing to take a mortgage on the town or some such thing for the unpaid balance. Perhaps Shelby needed the advertising badly enough, but we doubt it. Mister Dempsey is headed for an eclipse, and the sooner it reaches him the better. He may be a good fighter, but he is a poor sport.—Exchange.

The Nanaimo football team advanced another step towards the Dominion championship last week and when they defeated the Fort Rouge Rangers at Winnipeg.

THE PASSING OF THE TWELVE HOUR DAY

At a recent conference between the officials of the United Mine Workers of America and the Pennsylvania anthracite coal operators, many references have been made to the "twelve hour day." Many no doubt have been led to believe that miners do work twelve hours a day, when as a matter of fact the greater number work less than half this period. The only men around anthracite mines who work twelve hours per day are those in charge of the pump and fans and perhaps one or two other surface jobs that require supervision rather than manual labor. However, the operators have agreed to work out a plan whereby the twelve hour men, of whom there are three thousand distributed among some two hundred and fifty other employees, shall have their hours cut to eight per day. This merely means that three shifts be employed every twenty-four hours in grievances between master and man could be so easily adjusted as is this one this would indeed be a happy world.—Exchange.

Labour For Harvest Fields

It is estimated that between 10,000 and 12,000 men will be needed for the harvest fields in Alberta commencing about August 10th or 12th. The labor department of the government, under Walter Smitten, commissioner of labor, is now canvassing all possible sources of supply of such labor. Harvest-excurion will begin to arrive in Winnipeg on August 7, and others will reach there August 10, 16, 18, 21. Alberta will get a considerable number from these excursions, and it is estimated that two or three thousand men can be secured from B.C.

The labor department is making a special appeal to all employers in the province to release as many of their employees possible for the harvest fields. Men will be needed from August 10 onward, and employers who can release employees, and employees themselves, are asked to register with the nearest government employment bureau, which will see that the hands are placed. It is possible also that high school students will be asked to take a hand in the harvesting.

ALBERTA COAL FOR ONTARIO

According to an arrangement made with the Canadian National Railway, a shipment of 4,000 tons of Alberta coal, at a rate of \$7 a ton, will be made to Ontario in the next few weeks, for exhibition and experimental purposes. The shipments will be made from several mines in Alberta, under the authority of the Alberta government. This arrangement is a result of the conference held some time ago between fuel board officials, Alberta government, official and railway officials and mine owners. Mr. Howard Stutchbury, trade commissioner of the province, will have charge of the distribution of the coal in Ontario. The object is to demonstrate finally the feasibility of establishing Alberta coal as a suitable Ontario fuel.

New Irrigation Areas

According to statements contained in the annual report of the reclamation service of the department, if the interior at Ottawa, it is possible to irrigate nearly 400,000 acres, more south and east of Lethbridge, at a cost of about \$40 an acre. The development of this area, however, depends on the development of a reservoir system on the Waterton, St. Mary's and Milk rivers. For the development of the Lethbridge south-eastern project the cost of reservoir system would be about \$6.00 an acre.

Visitors to Alberta

Visitors to the government buildings during the past week included Commissioner Henry Bullard, secretary of emigration for the Salvation Army in London, England, also Jas. R. Burnett, editor of the Women's Weekly, of Chicago, who is investigating conditions of social welfare among the people of the west, and who was greatly interested in Alberta's system of municipal hospitals, and the school fairs and the development of education in the rural districts.

Wool Crop in South

It is estimated by the Southern Alberta Wool Growers' Association that the clip of the south part of the province will reach a million pounds, and that the price will be about 28 cents.

TOURIST TRAFFIC

Since the opening of the Banff-Windermere road linking up the grand circle tour through the Canadian and American Rockies, there have been 1069 cars over the road, according to a statement from Ottawa, of which nearly 500 were American cars. At the auto camp in Calgary 4000 tourists have been accommodated since July 1st.

British Forestry Delegates

A distinguished party of delegates to the British Empire Forestry Conference being held in Ottawa, will visit the province during the latter part of August, reaching Edmonton August 22nd. The chairman of the conference is Lord Lovat, and the party to visit Alberta includes men from all parts of the empire. The visitors will be met at Wainwright by Premier Greenfield and Hon. George Hoadley.

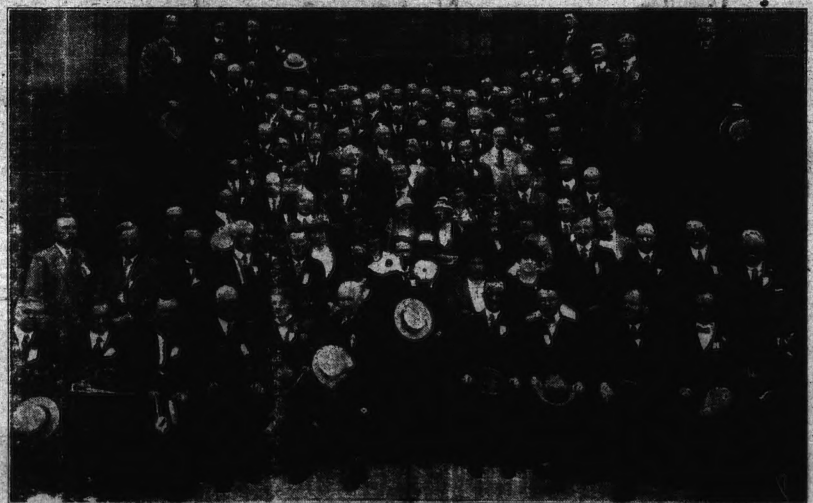

Mr. Browning Leaves

A. G. Browning, deputy attorney-general, left Alberta this week to enter the business of bond broker in Hamilton, Ontario. Mr. Browning has been given six months leave of absence by the Alberta government, and no permanent appointment to his position will be made until fall, when Mr. Browning will decide as to whether or he will return. Mr. Browning has been with the government eight years, and has occupied the position of deputy attorney-general, official guardian of children's estates, and administrator of lunatic's estates.

Get Out the Field Glasses

She reached below her dimpled knee into her rolled down stocking. And there she found a roll of bills; Ah, me; 'twas sweetly shocking! "Why don't you keep it in a bank?" Enquired a nossey pryer. "The principal is the same," she said. "But the interest here is higher"

The Mormon temple at Cardston will remain open to the public only till the 26th of August. Over one hundred Mormon marriages have been arranged to take place on the day of the dedication services.

Editors of Canada's Weekly Newspapers Photographed at Halifax.

No annual convention trip which the annual Weekly Newspaper Association has ever taken has been more memorable than that which has just been completed. Newspaper men from all parts of Canada—some as far east as Vancouver Island B.C. and as far north as the Mackenzie met together at Toronto to hold the special Canadian Pacific tour that was to take them by a series of easy stages to Halifax. The editors and their wives and some children numbered "thirty-four" about 12, and it took a train of twelve cars to accommodate them. The train was made up of eight standard sleeping cars, two Pullman, a baggage car and a newspaper observation car which added greatly to the comfort of the trip. The train was manned by a picked crew of operators and stewards and was accompanied by W. B. Howard, Assistant General Passenger Agent, and Mr. J. Harry Smith, Canadian Press Representative of the Canadian Pacific Railway. The success of the trip was to a large extent due to the organizing ability of E. Roy Sayles, Manager of the Association.

Pulled by one of Canada's finest locomotives the train made a special run to Montreal, arriving there ahead of time when it was the party was joined by many Quebec dignitaries. The last stop was at Fredericton, N. S. where the citizens joined in a splendid welcome to the travellers.

The Lieutenant Governor, and Premier Vautour of New Brunswick gave a reception and dinner in the Legislative Chamber, and the party moved on to St. John where similar hospitality was enjoyed. On the Canadian Pacific steamer "Princess" the party enjoyed a delightful sail to Digby, N. S. from where the trip through the Annapolis Valley to Halifax was made over the Dominion Atlantic Railway. The wonderful orchards and lake-lands of the Nova Scotia country were looking their best and a stop was made to visit old Fort Anne at Annapolis Royal where much of the early history of Eastern Canada was made. Kennebec Falls, a beautiful waterfall, was seen, and the party was met by the population to greet the newspaper people, and

here as in most other places touched off citizens came with smiles to give the visitors a glimpse of the surrounding country.

The ancient city of Halifax awaited herself in hospitality, and here the annual convention was held. At one of the meetings it was decided that the annual trip would next year be to England and France. The members will thus have a chance to visit the great Empire Exhibition at Wembley. The return trip was made via Canadian National to Quebec where the party was entertained by the Canadian Pacific at the famous Chateau Frontenac. The newly elected president of the Association is J. H. Martin, of "The Montreal Star."

Britain is Now Building Huge Rigid Airships Which Will Hover Above Clouds

Kees is now being laid in Great Britain for huge rigid airships which will hover above the clouds with a number of small fighting machines on board ready to launch at a foe, says an aeronautical expert in the London Daily Chronicle. The task of these new machines in war, he says, will be to carry aloft to immense heights and to transport if necessary, thousands of miles, squadrons of swift, deadly, steel-bull, "attack planes." These will be launched from high above the clouds, and will rush at 200 miles an hour and more earthward to carry other aircraft and raid the commerce of the seas.

"The airships will have the power, lacking in a small machine," the writer says, "of long-distance flights at a great altitude, while, on the other hand, the small planes they carry will be able to outfly and outfight any machine laden for a long journey."

In the case of specially-organized attacks by these formidable air-borne fighters on planes carried at sea by motor-ships, the tactics of the craft sent diving down from aloft will be to drive pell-mell on their foe, face-lashed opponents, and strike them deadly blows before they can gain the vantage-point of altitude.

"Weight in air-warfare is the key to victory, and these airship-carrier fighters will have the advantage of being in a position to choose their own moment for a swoop upon enemy aircraft climbing from the earth."

The Chronicle's contributor says that France, Italy and the United States all show a growing recognition of the importance of "aerial harbors" for swarms of fighting planes. The United States already has laid the keel of an airship which will launch single-seater fighters and pick them up again while the mothercraft is travelling at full speed. The first American "flying aeroplane," he adds, will be ready to take the air this summer. It will carry as a normal load 12 fighters of the latest type.

Great Britain has completed the first seagoing vessel in the world designed specially for the transport of aircraft. She has a displacement of 10,650 tons and carries seven-inch guns, four 4-inch, and a number of smaller guns. Besides torpedo armament, the vessel is fitted with two hangars, enabling her to carry 20 air-planes, which will be raised to the taking-off decks by means of electric elevators.

Another advance in aerial efficiency is the construction, for the British Air Ministry, of sea-planes with a speed of 125 miles an hour.

"One of the latest types has a wing span of 112 feet and carries nearly two tons of gasoline. It is fitted with twin motor engines of 1,500 horse-power, driving twin propellers."

Fame Of Manitoba Artist

Robert F. Logan, acknowledged by French critics as talented.

Robert F. Logan, a painter-etcher of Paris, France, has returned to Canada on a visit. Mr. Logan has been described by a critic as "one who is fast becoming the foremost etcher of Paris." He is a Canadian by birth, having been born in Manitoba 22 years ago.

This is his first visit here in many years and he is filled with enthusiasm as to Canada's future. He has just completed a tour of the west, where, he says, "there is a feeling of tremendous optimism, because of the prospect of very abundant harvests."

A complete set of eight etchings known as the Burgundy set by Mr. Logan has just been purchased for the library of congress at Washington, while the "Fountain of Youth," one of his masterpieces, now rests in the Chicago Art Institute. His painting, "Les Moines Vallantcourt," has been purchased by the French Government for the Luxembourg Gallery in Paris.

Citizens For United States

Many European and some Chinese have taken advantage of a clause in the Immigration Restriction Act, which provides that any person who has resided for a year in Mexico, Canada, Newfoundland, Cuba or Central or South America, can enter the United States without reference to numerical quotas. Within the last nine months, 40,000 "Mexicans" and 62,000 "Canadians" have crossed the borders into the United States.

If kept continuously running, a watch will tick 168,145,600 times in a year.

Japan is to have several national parks similar to those in America.

W. N. U. 1482

Livestock Market Situation

Good Stock in Demand in May With Considerable Increase in Exports

Although extreme top prices for cattle were rather lower at the principal markets in Canada during the month of May than in the corresponding month last year, as shown by the Dominion Livestock Branch reports, there was an encouraging improvement over the condition of affairs in the preceding month. An extract from the report reads: "Despite the comparatively heavy weight of receipts, the quality of the butcher and export stock was of such a good character, and the demand for good stock was keen, that the range of prices was increased by 50c to 1.25 per hundred weight. In the west there was a weaker tone at the close, while heavy cattle were inclined to drag, but in the east, good quality stock held reasonably steady. There was a continued strong demand for good quality stock suitable for finishing for the British market and the domestic beef trade. In view of the steady increase in the movement to seaboard. Short-keeper feeders appeared to be very popular with eastern farmers, who paid as high as \$7.75 and generally \$7 per hundred."

Relative to hogs, the report says that receipts and through billings show an increase to date this year of 150,000 over the same period in 1925. The supply was considered heavy for May, with the export bacon market showing considerable price reduction on account of heavy Danish killings, and consequent difficulty in clearing.

Prices on spring lambs, opened strong in May when few were offered, but as supplies increased, quotations became lower. The top at Toronto was \$20, compared with \$19 in May, 1925, and \$17 in the immediate April. Montreal high was \$18 against \$20 in May, 1925, and \$12.25 in April this year, and Winnipeg top, \$13.50 against \$16.50 last year and \$12.25 in April.

Exports of cattle, calves and sheep have been larger this year than last. From February 1 to May 31, 1926, cattle were exported to Great Britain and 21,874 to the United States, compared with 2,563 and 9,355 respectively during the corresponding period last year. Export of meat this year up to the end of May was 9,883,900 lbs. against 7,700,400 during the same period last year. Bacon and pork exports were also larger.

Determined To Stop Bootelegging In Furs

Plans Made to Enforce Game Laws of Each Province

Bootelegging in furs from one province to another is to be stopped. M. B. Jackson, M.L.A., Chairman of the British Columbia Game Conservation Board, announced on his return to Victoria from Winnipeg, where western provinces were in conference on game and fur legislation.

Plans were made at the conference to have enforced, in shipment of furs from one province to another, all game laws of the province of origin. Mr. Jackson said, The Dominion Government will be asked to pass legislation to uniform royalties on furs are also planned.

"This arrangement, we believe, will put an end to bootelegging in fur and will place an official stamp on fur transactions from one coast of Canada to the other," he said.

Canada's Meat Exports

During the first five months of this year Canada exported to Great Britain 19,558 cattle, 5,877,290 pounds of beef, 42,135,400 pounds of mutton, 1,294,000 pounds of pork, and 29,500 pounds of mutton. All show a considerable increase over the same period last year, except mutton. To the United States in the five months Canada exported 2,871 cattle, an increase of 13,811 compared with the same period last year.

Chances For Longevity

Dr. Eugene Lyman Fisk, diagnostician and author, says, "The average person does not stand the best chance of living long. The man or woman who weighs twenty or thirty per cent below the average has the best chance for long life. It is safe to say the average individual reaches the ideal build at thirty. If he can keep near that build for the rest of his life, he increases his chances of longevity."

Student (in biology): "Every rabbit has four legs and one anecdote."

Professor: "What is an anecdote?" Student: "A short, funny tale."

Keeping your mouth shut is an easy way to keep from hurting people's feelings.

Suppression Of Opium Evil

British Minister in Peking Thinks Enforcement of Hague Pact Remedy

China is producing hundreds of tons of opium, says Sir John Jordan, British Minister in Peking, and it looks as though she were going back to the old, bad state of affairs before the suppression of opium by agreement with India was brought about. India, the British Minister adds, used to export about 100,000 chests of opium a year, mostly to China; now her exports are only 8,000 chests, almost exclusively to the East Indies. She is prepared to reduce this if there is a reduced consumption.

He says India is loyally and scrupulously observing every provision of the Hague Convention. Turkey and Persia, he adds, must be brought within the Hague Convention, or the attempt to control the supply of opium must inevitably fail. Similarly, it is essential that Switzerland join the convention, since that country is one of the most important centres in the world of the drug traffic. Sir John declared, "The Hague Convention is honestly and efficiently enforced today, the opium problem will be solved tomorrow."

Natural Resources Bulletin

What Western Agriculture Means To Canadian Trade

The Natural Resources Intelligence Service of the Department of the Interior at Ottawa says:

What the opening up of the prairie provinces to agriculture has meant to Canadian trade is illustrated in the foreign trade returns of exports. In 1902 the exports of vegetable products, including grain, amounted to \$38,065,000, while twenty years later, in 1922, the total of the same class was \$377,515,000. Animals and animal products for the same years were \$81,175,000 and \$106,450,000. In 1902 agricultural products represented 19 per cent of the total exports, and animal products 31 per cent. In 1922, 42 per cent of exports were agricultural and 14 per cent animal. While both of these classes have shown remarkable gains, that of agriculture has so far outstripped others as to show a much larger proportional increase. The enormous grain crops of Western Canada have placed agricultural products in a position where they represent nearly one-half of total exports of Canada.

Silver Rush In Yukon

At midnight, in Dawson City, Yukon Territory, as the celebration of Empire Day was at its height, tidings were brought to the dance halls and gambling places of the discovery of a silver ledge at Happy Creek, forty miles south of Yukon. Immediately the rush began and soon the waterways leading to Happy Creek were filled with rowboats, canoes and launches carrying eager prospectors.

Alberta Coal For East

Alberta coal can be delivered in the freight yards at Ottawa for \$12.50 a ton, according to a news story in the Ottawa Journal. This is almost 40 per cent below the present retail price of Pennsylvania anthracite. Brigadier Hughes, Superintendent of Penitentiaries, received a wire from Edmonton from a coal company quoting the \$12.50 price for Ottawa and Kingston, the paper says.

Handle Naturalization

Two officials of the Department of the Interior, John A. McLaughlin and John D. Craig, have been appointed by the government to deal with naturalization applications in the southern territories. Mr. Craig last jurisdiction in Franklin district and Mr. McLaughlin in the Mackenzie district.

The average speed of the earth in its motion around the sun is 18.5 miles a second.

Settlers Are Lonely

Need For Woman in North Of British Columbia

Young women who would become the wives of settlers in a new country and be willing to do their share of pioneering would find a paradise in the Toba River country, north of Powell River, according to word brought back to Victoria by Provincial Government investigators.

"We were asked by the settlers to make an examination of the agricultural prospects of their region," says the report. "The greatest need in women settlers. They are needed to give the men inspiration and keep things in order. There can be no real settlement without them."

Italian Buys Famous Bible

Was Owned By Late Emperor Karl Of Austria

The famous Bible of the Borso d'Este, valued at \$250,000, and belonging at one time to the late Emperor Karl of Austria, has been purchased by a rich Milan manufacturer, who would an American banker for the Bible is illustrated by artists of the 15th century and is regarded by antiquarians as the finest specimen of its kind in existence. During his stay in Switzerland, Karl, being short of money, sold the rare book to a London antiquary, who in turn disposed of it to its present owner in Italy.

Prefers Canadian Grain

Varities Used on Noted American Farm Originated In Canada

The Heart's Delight Farm at Chazy, New York State, consisting of eleven thousand acres, is one of the most noted farms in the world. It is interesting to learn, when on a recent visit to this farm, that the hundreds of acres of spring grains under cultivation were, in all instances, varieties which had been originated in Canada; the oats and the barley of Guelph, and the spring wheat at Ottawa. The O.A.C. No. 104 variety, originated at Guelph more recently, was being tested out.

Government Railway Profitable

The report of the Temiskaming and Northern Ontario Railway, owned and operated by the Ontario Government, declares 1922 was the best financial year in the history of the railway. Results of operations in 1922 show net earnings of \$712,595, as compared with \$181,778 the previous year, an increase of over half a million dollars. The gross income was \$4,261,651 and the total expenditure \$3,649,145.

Sugar Beet Industry

Farmers in Southern Alberta are again interesting themselves in sugar beet production. A number of trials plots are being given this year in the vicinity of Calgary and Edmonton. The crops turn out satisfactorily, and further tests show the sugar content of the beets to be sufficiently high. It is expected that a sugar factory will be put up and the growing of beets become a regular industry.

Valley Apple Crop Will Be Record

The apple crop of the Okanagan Valley will amount to \$29,000 cars, according to the crop estimate of W. T. Hunter, district horticulturist. This is an increase of 20 per cent over last year and a record crop for the district. The apple crop for the Kootenay and boundary districts will, it is estimated, approximate 290,000 boxes.

"I suppose your wife misses you a great deal?" inquired a lady of a continental traveller. "Well, no; for a woman, she has a remarkably straight chin," was the reply.—Dallas News.

"Slas of omission?" repeated young Oswald on being asked what they were. "Why, they are the slas we have forgotten to do."—London Morning Post.

Interesting Discoveries Made In The Red Deer Valley Of Remains Of Gigantic Reptiles

London Prepares For Next Year's Visitors

Finding Room For The Millions Expected Is Big Task

Hotel and boarding house accommodations for overseas and provincial visitors to London next year is already engaging the attention of the British Empire Exhibition authorities. The exhibition officials are in negotiation with the Incorporated Association of Hotels and Restaurants and the Residential Hotel-keepers and Owners Association. With the help of these two bodies and others interested in providing temporary accommodation for the millions of visitors who will undoubtedly be arriving in London next summer, a committee is to be set up immediately.

One of the first duties of such a committee will be to compile an official list of hotels, restaurants, boarding-houses and private houses at which visitors may obtain good accommodation and service at a reasonable price, approved scale of charges. Only such boarding-houses and hotels as are prepared to adhere to their usual scale of charges for the summer season will be included in this list.

It is proposed to collate and index a list of available accommodation for visitors within a ten miles radius of the west end, and in conjunction with the transport authorities to see that travel facilities are available until after midnight. All Middlesex and parts of Bucks, Herts and Surrey will be included, and as it has been suggested that many of the industrial towns in the north shall arrange to spend their "wakes," or holiday weeks in London, instead of at Blackpool or Douglas, it may be necessary to provide special holiday camps or hostels on the outskirts of London.

All-British Inventions

Many Produced By Research Department Cannot Be Imitated

The Morning Post published some information which we imagine was quite new to the public about the work of the Engineering Research Department of the post office. "One of the inventions of the department is an instrument which indicates the exact point at which any underground telegraph cable is in danger of breaking. By this means the collapse of any cable can be foreseen and prevented, and yet the instrument can perform its work of detection while the ordinary telegraph service is going on. Another example of the economy resulting from research work is that the original trunk lines between London and the north which weighed 600 lbs. per mile have been replaced by wire weighing only 40 lbs. per mile. Moreover, much better results are obtained by the lighter wire. The Morning Post says that the Post Office Research Department helped the Allies to an extraordinary extent in winning the war. The various devices produced by the department were "all-British" and our enemies could not imitate them. "So there's something in the English after all." Research is one of the few things which truly prosper in a business department of State because men follow research like a mistress or an art.—From the London Spectator.

It places a man to be told that he is in his prime, but say the same to a woman, and her feathers begin to ruffle.

Last year \$500,000 was expended on construction of graveled roads in Alaska.

One-half of the world ought to be what the other half is not.

Canada, too, has its "Valley of the Kings." It is not the gold-mined remains of human kings which repose in this vast valley, but the bones of ancient kings of the wild lands which stretched across this continent many centuries before man made his earliest appearance.

These dinosaur kings, who tyrannized over the smaller creatures in that early age, now rest their enormous bones beneath the earth in the "Bad Lands" each of the city of Calgary. Here, the prairie soil is interrupted, and the deep canyon of a river marks the border of the Red Deer valley, where the dinosaurs roamed until man's curious hand, aided by machinery necessary for the task, took out of their ancient graves the bones of the megaliths which form objects of great interest in the natural museums today.

Once, according to geologists, the bottom of the Bad Lands was the bed of an inland sea, along the shores of which lived the huge lizard-like creatures whose skeletons have only recently been discovered there. The western "Valley of the Kings" was practically unexplored until a few years ago, when the first amazing bones were found by diggers. Each season now, more and more interesting discoveries are being made. Remains of gigantic reptiles—for they are reptiles, and not mammals, which have left their bones in the Red Deer Valley—fifty, eighty and even one hundred feet in length, are being found at the present time.

The skeletons of the huge creatures were broken and watered the valley, the weight of the earth and stone on top of them, are being dug out of the heavy ground in which they are buried, by prospectors who are unwary in their efforts to force its secrets from the rocky ravine.

Geologists say that the dinosaurs date back more than three million years. When these great beasts flourished on this continent, they walked about by a great inland sea which stretched from the Gulf of Mexico to the Gulf of Alaska. The dinosaurs' remains are buried in the Edmonton and Belly River formations, formed by the waters of this inland sea. The ground where they lived was low and swampy, covered with lush grasses and jungle trees and forest of species unknown at the present day.

Some of the monsters which are now being exhumed were carnivorous. Others were merely herbivorous. Some walked on four legs, others on two. The carnivorous were large and small, weak legs, and were built somewhat on the dinosaur principle. They walked about like present-day crocodiles, never going far from the water. Later, they developed stronger limbs and began to balance themselves on hind legs and tall assuming a kangaroo-like appearance. Their immense size has never been exceeded.

Some of the animals were encased in a kind of armor. Others were altogether sea reptiles, provided with flippers in place of feet. Still others had huge lungs, smaller than the land animals. Remains of the latter are scarce.

In a single valley of the Red Deer River have been found bones representing several hundred of these prehistoric beasts. The favorite section for tourists is in Dead-Lodge Canon. Here have been found duck-billed, horned and crested remains, many of them representing specimens hitherto unknown. The most perfect carnivorous dinosaur skeleton ever found anywhere came from this valley, and is now to be seen at the Royal Victoria Museum, in Ottawa.

Investigations of the wonders of the Bad Lands valley have been going on since 1881, when the first dinosaur remains were reported by J. B. Tyrrell, Dominion Government surveyor, but follow-up work began only recently.

So great has interest in this section of the country become, that the Canadian Pacific Railway has arranged for parties of tourists to visit the place this summer, the valley can be reached by motoring from the town of Brooks on the C.P.R. main line, 110 miles east of Calgary and 66 miles west of Medicine Hat. The approach to the Bad Lands recommended by railway officials here is that from Dead-Lodge Canyon or along the One Tree Trail, where one comes suddenly upon the great valley from its height above it.

Electric machines for postmarking letters can deal with them at the rate of 800 a minute.

The Afghan is bathed at birth, at marriage, and at death, and that is all.

We have no proof that The Lord loveth the cheerful giver of advice.

Left to right—Lt. Col. H. Hamilton-Wedderburn, O.B.E.; Mr. A. E. Cayley, Sir John Ferguson, K.B.E.; and the Rt. Hon. Lord Amphill, O.C.I.E., O.C.S.I. members of the British-Masonic Grand Lodge of England, depicted by His Royal Highness the Duke of Connaught to officially represent their lodge at the annual meeting of the Grand Lodge of Canada in Toronto, and to carry greetings from the Grand Lodge and Masonic Fraternity of England to the Grand Lodge and Masonic Lodges of Canada. They were recent passengers aboard the Canadian Pacific liner Empress of Scotland.

Blairmore Lodge, No. 88, meets every Tuesday night at 8 p.m., in the Oddfellows' hall. Officers for the ensuing term: N.G.: M. D. Hoffman; V.G.: T. S. Dawson; Rec. Sec.: E. McEwen; Fin. Sec.: H. James; Treas.: J. Montalbetti.

Crows' Nest Encampment No. 8, meets on the second and fourth Wednesdays of the month in the I.O.O.F. hall at 8 p.m. Officers for ensuing term: W. Patterson, C.P.; James Crowder, S.W.; E. Oliver, R.S.; and F.S.: J. Montalbetti, Treas.

Crowfoot Rebekah Lodge, No. 66, meets the first and third Thursdays of the month at 8 p.m. Officers: Sister Evans, N.G.; Sister Joyce, V.G.; Sister James, F.S.; Sister Hodi, F.S.; Sister N. Evans, Treas.

Bellevue Lodge No. 118, meets every Monday night at 8 p.m. Officers: H. Peters, N.G.; F. Beale, V.G.; W. Goodwin, Sec.-Treas.

Armistice Encampment No. 17, Bellevue, meets the first and third Wednesdays of the month. Officers: A. B. Carr, C.P.; Stephen Beale, V.G.; F. Harry Jepson, S.W.; Fred Padgett, J.W.; E. Excoffin, treasurer; Charles W. Ray, Sec. Box 6

Ray of Hope Rebekah Lodge No. 67, meets the first and third Wednesdays of the month. Officers: Sister Litherland, N.G.; Sister Beale, V.G.; Sister Blake, R.S.; Sister Christie, F.S.; Sister Goodwin, Treas.

Visitors of the Order are cordially invited to attend the above lodges.

Recently the town of Blairmore was notified to destroy what is known as "stink weed," reported by some person as spreading rapidly in the town. As far as can be noticed, the amount of such weed that could be gathered in this section of the Crows' Nest Pass would not make a backload for a man. Out on the prairie millions of tons of that weed have been allowed to go to seed this year and thousands of acres of crop have been destroyed thereby and there is no sign of action by the government to prevent a further spread.

British Columbia has several laws regulating tourist camp grounds.

The Lethbridge Miners should remember that Blairmore had not the same number of policemen available to return to them the treatment (or reception, if you like) that was handed out to Blairmore on the occasion of one of their visits to Lethbridge less than four years ago.

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF CHARLES HENRY WORTH, late of the Village of Bellevue, in the Province of Alberta, Miner, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims on the Estate of the said Charles Henry Worth, who died on the 14th day of January, 1923, are required to file with the undersigned, solicitors for the Executors, by the 11th day of August, 1923, a full statement, duly verified, of their claims and of any securities held by them, and that after that date the Executors will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to their knowledge.

DATED this 27th day of July, A.D. 1923.

GILLIS & MACKENZIE, Solicitors for the Executors, Blairmore, Alberta.

FROM THE TOURISTS' LOG

July 26.—From Waterloo Lakes to Pincher Creek, roads good. There is this camp rough and stony (mostly). Don't be afraid to cross couple of water holes on road—good gravel bottom. A very creditable camp and we will pass the word along.—F. L. Parley and wife, Camrose, Alberta.

July 26.—Travelled from three miles east of Fort Steele yesterday, where there is a good campsite. Roads had from five miles east of Michel to Blairmore. Your campsite is a credit to your town. Will tell others. Thank you.—James J. Marshall, wife and son, Brooks, Alberta.

July 27.—Drove from Fernie this morning. Roads fine, except around Crows' Nest. Fine camping grounds at Fernie. Good everywhere in B.C., over the Windermere trail, although not as good as this one. We sure appreciate these camps. Thank you.—A. G. Smith and family, Nanton, Alberta.

Miss Evelyn Flock arrived here July 28th from Vancouver. Your camp site is the best we have seen yet and is a credit to your town. Will tell others of it. Thank you.

July 28.—Mrs. J. G. Baland, Vancouver. Your camp ground very much appreciated. Many thanks.

July 28.—Ten p.m. Just arrived, after driving from Calgary and bucking and sliding around in the gumbo this side and beyond Macleod. Never saw a camp ground more like a home than this one. Did not expect to find a camp here, much less such a good one. Thank you.—Leroy Lambert and family, Police Department, Spokane, Wash.

From Calgary. Don't pass up the Calgary camp. Roads good all the way with some small exceptions.—R. A. J. Little and W. S. Stevenson.

Arrived Saturday night, July 28th from Calgary. Roads are good except from Lundbreck here. Your camp grounds are all that can be desired. No suggestions to offer, except that a register might be provided. We will remember your camp and the pleasant two days we have spent here. Going to Fernie Monday. We thank you.—J. A. Gillis, Mrs. J. A. Gillis and Jack H. G. Gillis, Calgary.

We arrived here from Fernie on Monday, having camped in Fernie over night of 29th. We are having a short stay here to get a meal. The roads are in rough condition at present, but we expect the next time we come this way they will be better.

Calgary-Banff-Windermere and return to Calgary. Thanks for your camp accommodation. Yours—Frederick Johnson, John Johnson and Robert Johnson.

July 30.—Arrived in camp just before it commenced raining Monday evening. Found good accommodation here, but the rain has spoiled the view. Went north by way of Cranbrook and Windermere and found the roads fairly good, with lots of new work under way. The road and scenery from Invermere to Banff is wonderful and should not be missed. From Banff to the eastern entrance the roads are fine and from there to Calgary they are rough in places when dry, but would hate to think what they would be when wet. From Calgary to Macleod they are fine, but also would be bad when wet. Good camping sites in the park and at most of the towns along the way. Are on our way home by way of Gateway, Thompson Falls and Wallace.—L. R. Blair and family, Coeur d'Alene, Idaho.

July 31.—Arrived here at 2:30 p.m. from Yakima, Washington. So cold could not enjoy scenery. Snow storm at Crows' Nest. Heavy snow on mountains. People in Canada are very nice, but the climate is too cold. You ought to come down in the States where we have real good old summer time and nice winters.—James F. Ingram and son and T. A. Lowell and wife.

July 31.—We were advised not to come to Canada, because the roads were very poor and very bad in wet weather. Above all, we were told by many not to go to Lake Louise via Blairmore, but to take the Calgary route. It is a pleasure that we have found from fair to good roads all the

way from the eastern side of Glacier Park and our memory of this part of Canada will always be a pleasant one. The California Auto Association, the Salt Lake Auto Association and the Seattle Association all recommend this road through Blairmore for scenery and we are sorry the Canadians in Cardston and elsewhere do not recommend it to tourists. It may interest the merchants to know that we spent nearly thirty dollars during our stay in this pleasant camp.—J. F. Mason, Los Gatos, California.

The following suggestions were left during the week:

For the benefit of those who must write their names on walls, etc., we may suggest that you place a nice card holder on the wall with the note above, "If you wish to leave your name, kindly place your card in this rack and refrain from writing on the walls and tables." Also: "Kindly clean up the sink and tables before leaving the camp."

We understand that Bellevue will not sport a hockey team during the coming season. This is unfortunate and their loss in the C. N. P. Hockey League will be keenly felt.

It is proposed to build a labor temple at Lethbridge. Why not also an anti-labor temple with bigger accommodation.

Here and There

Over a hundred salmon, an egg of various species were collected by the hatcheries branch of the Department of Marine and Fisheries during 1921.

Inbound ships from the United Kingdom are averaging 4,500 tons of freight for discharge at Vancouver. Outbound they take about 4,000 tons per vessel. Last year the average outward tonnage was practically the same while the inbound was only about one tenth of what it now is.

Announcement has been made that a Government wireless station is to be erected on St. Paul's Island, which stands in the entrance to the Gulf of St. Lawrence, off the most north-easterly point of Nova Scotia. Two Government wireless engineers have arrived there and are making arrangements for the erection of the station.

One hundred and forty thousand Canadian school boys have been banded into an army of guards to watch for and prevent forest fires in the Dominion this year, according to an announcement made by the Canadian Forestry Association. The new organization, which is known as the Young Canadians' Forest League, will, it is expected, save several million dollars' worth of timber from fire ravages.

"That 'prospects for increased immigration into Canada are excellent' was one of the most important statements made by E. W. Beatty, K.C., upon his return from an extended tour of England and European capitals. The president of the Canadian Pacific Railway believes Canada is progressing in the matter of immigration, but intensified efforts are essential, he considers, to offset erroneous impressions abroad that Canada does not require new settlers.

A record run between Winnipeg and Quebec was recently made by a special Canadian Pacific train which passengers from the Orient were, through delay caused by landslide, in danger of missing their connection with the C.P.S. "Empress of Scotland" at the eastern point. The train covered the 1,579 miles in a little over 36 hours, whereas the schedule time for train between these two cities is 53 hours. The passengers had crossed the Pacific on the C.P.S. "Empress of Russia" and were taking advantage of the 21 day Orient-Europe service of the Company.

The United States has invested in Canada \$2,500,000,000, according to the Bankers' Trust Company of New York, which has just completed a survey of Canadian industry and the amount of United States capital invested. Of the total sum invested, \$1,300,000,000 is in bonds, and the remainder in farms, mortgages, small businesses, industrial enterprises, banking and private loans. It is computed that more than 200 factory factories were opened in Canada by United States concerns in 1919, and a great number in 1920 and 1921, and that last in 1922 the number of these came to 700.

A collie dog is reported to have saved the life of a London West end child, while accompanying the child to a nearby store. On the way she stopped on the C. P. R. railroad tracks in the path of a westbound train. Realizing the child's peril, the dog threw himself against her with sufficient impact to knock her clear of danger, and was cut to pieces by the train before he could regain his feet.

The girl's mother tried to discourage the dog from going when the daughter started for the store, but he went, and was the means of saving the child's life, and died heroically as a result.

Labor Reductions On Automobile Repairs

We are now operating our repair shop on the Flat Rate Plan. By this plan the automobile owner knows what the job is going to cost before the work is commenced. The following are a few prices on Chevrolet repairs.

| | |
|--|---------|
| Overhaul Motor | \$32.00 |
| Overhaul Rear Axle and Propeller Shaft | \$24.25 |
| Overhaul Transmission and Universal | \$25.25 |
| Grind Valves and Clean Carbon | \$5.50 |
| Rebuild Steering Knuckles and Plain Arms | \$4.50 |
| Reline and Adjust Brakes (per set) | \$3.00 |
| Tighten Main and Connecting Rod Bearings | \$7.75 |
| Clean Carburetor | \$1.00 |
| Retime Ignition | 75c |

A Constitutional Amendment Is Needed

The lamentable effects of the Senate's action in blocking the policy of the directors of the Canadian National Railways, the Federal Government and the House of Commons, all of which bodies were agreed upon the necessity of constructing certain branch lines, are already in evidence, and as time passes the seriousness of the blow struck at Canadian progress and prosperity will become even clearer.

Charles McDonald, M.L.A. for Prince Albert, and a man not given to exaggeration, nor one likely to be guilty of misrepresentation, is authority for the statement that settlers are already leaving the Paddockwood district because, after years of struggle and waiting for a railway, the grade for which has already been made, they see the Government and the elected representatives of the people powerless before an irresponsible Senate. Three elevators which would have been constructed along this line this year will not be built, while creameries and other industries cannot be proceeded with nor operated with any hope of success.

Announcement has been made in the daily press that, owing to the Senate's action in placing their veto on the extension of the C.N.R. line from Kelvington, the Canadian Pacific has decided to proceed at once with the extension of their lines into the territory which the C.N.R. would have served and, unhindered by Senatorial control, the C.P.R. has let a contract for the immediate building of their line.

Nobody can blame the C.P.R. for thus pre-empting the territory. It is merely good business on their part, and if the Senate will not let the Canadian National build, then the people in the district concerned will most heartily welcome the energy displayed by the C.P.R., but how can Sir Henry Thornton and the directors of the Canadian National be expected to make that system a financial success if their well considered plans for the development of business are to be nullified by the Senate?

As was pointed out in a previous article, not only do the districts to be served by these short branch lines badly need them if the settlers there are to make a success of their farming operations and become contented and prosperous citizens, but the Canadian National must remain handicapped with thousands of miles of main lines unless and until it has many more branch lines as feeders to their main lines. And every one of the branches "killed" by the Senate would have helped materially in increasing the volume of traffic over the whole C.N.R. system.

It is useless to ask the Government to go ahead and build the lines despite the Senate's opposition. The Government is powerless unless Parliament approves and votes the necessary money. It is equally useless to pass resolutions condemning the Senate's action unless people and organizations responsible for such resolutions are ready, willing and determined to force a complete reform of the Senate as at present constituted. The Senate is immune at present. Its members are quite indifferent to any public criticism of its acts, because those members know the people are powerless to do anything.

Surely the time has arrived when definite steps should be inaugurated to bring about a change in our country's constitution whereby the present menace of an irresponsible Senate can be removed. The political party which has the courage to place a positive and clear-cut plank in its platform providing for Senate reform would undoubtedly rally a very large measure of support to its banner. Certain it is that the progressive Western Provinces will not much longer remain content to be the victims of the Senate's autocracy and irresponsibility.

Australia has the power to amend its own constitution. Why should Canada not enjoy the same right? The British North America Act was drafted and passed over half a century ago when the powers conferred on self-governing Dominions were not so great as those granted to other Dominions created at later periods, notably Australia and Ireland. The Canadian constitution was a broad and liberal one at the time of its enactment. But the world has progressed far since 1867, and no valid reason exists why the Canadian people should today be penalized because their Dominion was the first to be created.

The first step that should be taken, and taken at the earliest opportunity, is to obtain from the Imperial Parliament an amendment to the British North America Act conferring on the Parliament of Canada full right and power to amend its own constitution in such manner as the people of Canada may themselves desire. And if Canada asks for such an amendment to the B.N.A. Act, it is safe to say the Imperial Government and Parliament will not deny the request.

To Protect Forests

140,000 School Boys to Watch For Forest Fires

One hundred and forty thousand Canadian school boys have been banded into an army of guards to watch for and prevent forest fires in the Dominion this year, according to an announcement made by the Canadian Forestry Association.

The new organization which is known as the Young Canadian Forest League, will, it is expected, save several million dollars worth of timber from fire ravages.

The Druggists All Agree That "Putnam's" Is Best

The oldest corn remover on the market is Putnam's Corn Remover. It is the best. Your corns will all drop out after a few treatments with this painless remedy. Putnam's is impossible. Refuse a substitute for Putnam's, 25c everywhere.

No Bother to Him
Singletree—"It's such a bother deciding about vacation."
Wedmore—"It doesn't bother me. The boss tells me when to go and my wife tells me where."—Boston Transcript.

Sixty-six vessels for one shipping company in the same number of years is the record of a Clyde ship building yard.

Severe Kidney Trouble

Mrs. F. Rinehart, Campbellville, Ont., writes:

"I had trouble with my kidneys and very frequent urination. This was followed by pains which at times were very severe. The doctor said I had inflammation of the bladder and that an operation might be necessary. To this I refused, and began using Dr. Chase's Kidney-Liver Pills. From the first few doses I felt the benefit. The pains left, urination was corrected, and I have had no recurrence of these ailments."

Dr. Chase's Kidney-Liver Pills
One pill a dose, 25c a box. All dealers, or Edmundson, Bates & Co., Ltd., Toronto.

Economical Transportation

Motor Trip Los Angeles to Toronto Costs \$100

Many are the tales of motor rambles in this age of ever-widening scope, but what should prove a new record in this history of economical transportation is detailed in the story of H. G. Neal, Toronto man, who arrived home after a 1,600 miles jaunt. The total cost of the journey, including gasoline, oil and food for the four persons who comprised the party, was approximately \$100.

Slightly over a month ago Neal, with his wife and four children set out for Toronto from Los Angeles in his 1915 model "Silver." During the entire trip he had no puncture and averaged 24 1/2 miles to the gallon of gas. No accidents or mechanical trouble whatever were encountered. For the most part the party camped on camp sites and purchased considerable of their "grab" from farmers along the way. According to the motorist, in the middle west he purchased eggs for 15 cents a dozen.

A Public Duty

Must Ever Be On the Alert to Guard Against Spread of Disease

Science has nearly eliminated several of the eighteenth-century diseases which haunted eighteenth-century tranquility.

"Fever and ague," typhus and the ever-prevalent smallpox are rare, because a greater sense of civic responsibility enforces precaution.

But medical science cannot do everything. That same sense of common duty must help. And it is evident that many people would like, even in these days, to avoid the bother of notification, isolation and the rest. That is because a growing immunity due to the prolonged effort of generations, has diminished the sense of danger.

Yet we must never consider ourselves safe. The influenza plague that followed the war showed how disastrous such visitations may be when they descend upon crowded modern communities. More than ever it is necessary to assist science in its efforts to rid us of disease. We can assist it by obeying all wisely-considered regulations. That is for the public.—Daily Mirror, London, Eng.

Green Old Age

Kept in Health by Dr. Hamilton's Pills

Their Occasional Use Keeps the System in Healthy Condition.

A Mild Bowel Regulator

Easy to Take, Do Not Weaken or Sicken, Give Effective Action

With old age, nature's forces slow down, and need the assistance of Dr. Hamilton's Pills. They flush out the system, keep it free from poisonous wastes, make the bowels active and aid the stomach. To men and women past middle life Dr. Hamilton's Pills are of wonderful benefit. They keep regular, full of pep, in good spirits, use these vegetable pills frequently. 50c at all dealers.

Jordan Canals Urged

Canals to Irrigate the Plain of Jordan, round the Dead Sea, are proposed. Wide areas covered with fertile soil could then be cultivated.

BABY'S GREAT DANGER DURING HOT WEATHER

More little ones die during the hot weather than at any other time of the year. Diarrhea, dysentery, cholera infantum and stomach troubles come without warning, and when a medicine is not at hand to give promptly the short delay too frequently means that the child has passed beyond aid. Baby's Own Tablets should always be kept in the house where there are young children. An occasional dose of the Tablets will prevent stomach and bowel troubles, or if the trouble comes suddenly the prompt use of the Tablets will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25c a box from Dr. Williams' Medicine Co., Brockville, Ont.

To Handle Wheat Crops

Railways Making Provision to Handle Grain Expeditiously

New equipment for the Canadian National Railways and for the Canadian Pacific Railway which will enable each system to place between forty and fifty thousand cars in the grain handling service this season is being provided. An expenditure of about \$20,000,000 on new equipment for the Canadian National Railways was recently undertaken. With the biggest wheat crop in Canada's history in prospect the railways are making provision for handling it expeditiously.

Speaking of love, a man should look before he leaps—otherwise he might fall in.

Milnard's Lintment for Dandruff

Importance of Fur Trade

Value of Furs Sold Show Heavy Increase Over Previous Year

Anybody who imagines that Canada's fur trade is not an important item in the business of the country had better study the figures that have just been issued by the Dominion Bureau of Statistics. They would then realize more than ever the truth of the old adage that "the infant life of Canada was nourished by the fur traders." The illuminating figures issued by the bureau show that in the season of 1921-22 the value of furs sold increased over the previous season by more than \$7,000,000. In that season the total value of pelts of fur-bearing animals taken was \$17,377,834, an increase over the previous season of \$7,226,240, or 71 per cent.—Victoria Daily Times.

Flowering plants grown in the British Isles include more than 250,000 varieties.

Corns cause much suffering, but Holloway's Corn Remover offers a speedy, sure and satisfactory relief.

A Gigantic Effort

How France Has Been Repairing the Devastated Areas

Out of 2,600,000 inhabitants of France driven from their homes during the world war, 76 per cent. have returned, according to Robert Meson, Director-General of the Credit Lyonnais, Paris, at the eleventh annual meeting of the Chamber of Commerce of the United States in New York, as recorded in Forbes Magazine. Of the 1,500 miles of standard-gauge track destroyed, 100 per cent. are operated again. Out of 3,000,000 acres of devastated land, 91 per cent. are restored. Of the 22,000 industrial plants destroyed, about 90 per cent. are working again. So far, the expenditure on reconstruction of material damages amounts to \$1,000,000,000 francs, and the payments for personal damages (capitalization of pension compensations, etc.) to \$1,000,000,000 francs. With the interest paid on the loans raised to procure these amounts, the French Government has disbursed to date more than \$7,000,000,000 francs. Even taking the dollar, as I have done right along, at fifteen francs, though the franc was worth more at one time, this means nearly \$5,000,000,000. This is truly a gigantic effort.—From the Christian Science Monitor.

And Still Going Strong

First Convict.—They say Milton took fifteen years to write one page of a book.

Second Convict.—That's nothing. I've been ten years on one sentence."

The Lengthening of Life

Modern Conditions Have Changed Older Standards by Which Men Were Judged

From 25 to 45 for the average man. Long ago a man was considered at his strongest and most beautiful between 20 and 30, at his best as a leader or manager from 30 to 40, as an experienced hand of business from 40 to 50, and as a councillor or judge of other men's troubles from 50 to 60. Roughly these divisions are to some extent still correct. Modern life, however, with its increased opportunities for travel and education, has so speeded up conditions that young men of business and politics have by the twenties often acquired enough experience to allow them to rise to their prime early in life. At the other end of life, altered social conditions and better medical attention have allowed physical efficiency to be retained far longer.

The Fraternal Feeling

Grace—"The only men I ever like are my brothers."

Murray—"Er—what lodge do you belong to?"—New York Sun.

Man wants but little here below the standard.

New Plant Varieties

Canada First Country in the World to Adopt Patenting of New Plants

Through the efforts of the Canadian Council of Horticulturists, endorsed by representatives from fruit and vegetable dealers, packers, jam manufacturers, gardeners, nurseries and amateur horticulturists from all parts of the Dominion, Government registration of new plant varieties had been secured. L. F. Burrows, Ottawa, Secretary of the Council, told members of the Manitoba Horticultural and Forestry Association at a luncheon, and Canada was the first country in the world to adopt this Government patenting of new plant varieties.

The Friend of All Sufferers.—Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever required for.

Curtain Maker Sets Record

One veteran worker in a large lace factory in Nottingham has a record of having made more than 1,000,000 pairs of lace curtains during his forty-five years of service.

ASPRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds Headache Rheumatism
Toothache Neuralgia Neuritis
Earache Lumbago Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Chemicals. To assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Message Of Good Will Is Brought To Canada By President Harding

Vancouver.—More than 40,000 persons heard President Warren S. Harding of the United States deliver a message of warm friendship and admiration for Canada. Realizing the significance of the occasion—the first time a holder of his high office has visited Canada—the reception accorded him along the line of march and at Stanley Park, where the address was delivered, was most impressive in enthusiasm.

Mr. President himself frankly admitted that the welcome far exceeded expectations of himself and his party. The manifestations of welcome were continuous, beginning when the naval transport Henderson, bearing the President and his party from Alaska, steamed into Burrard inlet and received from the British light cruiser, Curlew, a salute of 21 guns, and continuing until 9:30 o'clock when, after attending a state dinner given by the Governments of the Dominion and of the province of British Columbia, Mr. Harding returned to the Henderson for the overnight voyage to Seattle. It was a welcome bespeaking friendship and cordiality, not alone for the man himself, but for the great nation he represented.

Declaring that the traditional friendship existing between Canada and the United States presents an excellent example to other parts of the world, the President said a significant symbol of the growing maturity of the two countries appeared in the fact that a voluntary exchange of restrictions, wholly free from restrictions, has been going on. "Our natural and industrial exigencies have made it necessary for us, greatly to our regret, to limit immigration," he said, "but there is no question for Canada. We gladly welcome all your sturdy stock with care to come, as a strengthening ingredient and influence."

On the historic moment when the President set foot on Canadian soil, the first gun of the 21-gun artillery saluted. Escorted by Gen. Victor O'Donnell, and the naval officers and members of the United States Cabinet, the President inspected the guard of honor, which, on his arrival, presented arms while the band struck up "The Star Spangled Banner."

Then the President was escorted back to where Dominion, Provincial and civic authorities presented official addresses of welcome, expressing keen appreciation of the more than century of peace between the two nations, a keen desire for promotion of still more friendly trade relations and admiration for the nation itself and genuine cordiality for the men representing that nation.

Appeal Is Dismissed

Privy Council Throws Out Case of Paper Company Against Newspapers

London.—The appeal in the case of the Fort Frances Pulp and Paper Company, Ltd., vs. the Montreal Press Company, Ltd., and others, in connection with a claim to recover money paid in excess of prices fixed by the paper control board under the War Measures Act of 1914, was dismissed with costs by the Judicial Committee of the Privy Council.

The judgment states that the appeal raised questions of some novelty and difficulty.

Win For Conservatives

Big Landslide Witnessed In P. E. I. Elections

Charlottetown, P. E. I.—The Conservatives made almost a clean sweep in the provincial election, the 1921 Government coming out of the debacle with only four seats out of 30, according to what are practically complete returns. The opposition carried the whole lot, seats in King's county, where the leader, J. D. Stewart, K.C., was running.

In Queen's the result was nine Conservatives and one Liberal. In Prince county, three Liberals and seven Conservatives were elected.

Every member of the Bell Government was defeated, in almost every case by large majorities.

First Irish Appeal To Privy Council

Five Appeals Heard By Judicial Committee Were Dismissed

London.—The first petition for leave to appeal to the Privy Council from Ireland since the Irish Free State was established, were heard by the Judicial Committee of the Privy Council, Lord Haldane presiding. Four of the appeals of the Irish Free State Parliament the House of Lords was the final court of appeal for Ireland, as for the rest of the British Isles, but Ireland having become a Dominion the Judicial Committee of the Privy Council is the last court of appeal for that country. The appeals, five in number, were dismissed.

Will Give Liquor Law Fair Trial

Premier Bracken to Appoint Strong Committee to Handle Matter

Winnipeg.—"It is the purpose of the Government to appoint as strong a commission as possible, and to keep politics as far away from it as we can," declared Premier Bracken when commenting on the new liquor law in the course of the speech from the throne debate. The legislation would give a fair trial, he said, and nothing would be left undone to insure its success. In saying that, however, he appealed to the people to recognize their moral responsibilities to get behind the Government in enforcement of the new law.

Dr. Rutherford Buried at Ottawa
Ottawa.—Dr. J. G. Rutherford, member of the Board of Railway Commissioners, was buried in Beechwood Cemetery here. The funeral was an unusually large one, and was attended by ministers of the crown, High Government officials and a large representation of the capital's business life. The honorary pallbearers included the entire Board of Railway Commissioners, Sir Robert Borden, Hon. G. E. Graham and Hon. Chas. Murphy.

Situation in Greece Is Grave
Paris.—The situation in Greece is described as of the gravest by Belgrade newspapers. says a dispatch to the Mail, from the Serbian capital. News from Athens declares the Bulgarian movement is gaining headway in the army and that a ministerial crisis is imminent owing to a split in the Venizelist party.

Increase In Butter Exports

Japan Was Canada's Best Customer During Month of June

Ottawa.—A remarkable increase in the quantity of butter exported during the past twelve months, compared with the previous 12 months, is shown by a report of the Dominion Bureau of Statistics. Cheese exports show a slight decrease.

Butter exported last June was 298,123 pounds, valued at \$118,582, compared with 233,330 pounds, valued at \$78,909 in June, 1922.

Last month's largest customer was Japan, which country took 88,892 pounds. Butter exports for the year ending June 30, were 2,549,033 lbs., compared with 5,086,773 pounds, the previous year.

Exports of Canadian cheese, in June, were 64,786 hundredweight, at a value of \$1,137,556, while for June, 1922, they were 70,930 cwt., valued at \$1,087,327. Cheese exported for the 12 months ended June, was 1,129,865 cwt., compared with 1,242,335 cwt., during the previous 12 months.

Fresh cream exported to the United States, in June, amounted to 339,420 gallons, value \$559,519, compared with 248,514 gallons and value \$347,987, in June, 1922. The United States took 241,077 gallons of fresh milk, in June, value \$45,877, compared with 145,529 gallons, value \$11,227, in June, a year ago.

B.C. Forest Fire

Area of Several Hundred Acres Devastated By Flames

Vancouver.—Two men have been injured, and a logging camp, including bunkhouse and rigging, together with a considerable quantity of timber, has been destroyed by a forest fire at Menard Bay, near the mouth of Seymour Narrows, about 150 miles north of Vancouver. The identity of the injured men has not been ascertained, but they have been removed to the Campbell River hospital.

The fire is reported to have commenced in woods over 100 acres, and it is said to be raging over an area of several hundred acres. The fire is out of control, and is being fought by a crew of 70 men.

Expect Rush Of British Farm Hands

Railway Officials Making Arrangements to Handle Large Traffic

Montreal.—Preparations are being made by Canadian National Railway officials at Quebec and Halifax to handle the large traffic in British farm laborers which is expected to begin about the second week in August. As a result of the reduction in fares advertised by steamship companies in the British Isles, it is reported several thousand young Britons will cross the ocean. Most of them will be sent to Winnipeg for distribution.

Hungary's Wheat Crop Increased

Will Harvest 6,000,000 Bushels More Than Last Year

Washington.—Hungary's wheat crop this year is 6,000,000 bushels larger than last year's harvest. A cablegram from the International Institute of Agriculture at Rome to the Department of Agriculture placed the crop at 60,737,000 bushels with revised estimates of last year's crop at 54,737,000 bushels. All cereal crops in Hungary show larger yields than last year.

Establish Grain Station
Hamburg.—The Russian Soviet Government, it is learned, will establish a grain receiving and distributing station here. Russia's export grain will be cleared through this station.

WESTERN EDITORS

H. W. Delta, Editor and Proprietor of The Record, Hughtenden, Alta. The Advocate, Amlak, and The Clipper, Gar, Alta. The little girl shown in the picture is the seven-year-old daughter of Mr. Delta. She is just in her glory if she can get in the office and help daddy do the type. Yes, she can distribute type cleaner than many boys or girls of more experience, although she does not have the opportunity for much practice.

More Traffic Through Soo Canal

Last Month Shows 70 Per Cent Increase Over June, 1922

Ottawa.—Traffic through the Canadian and United States canals at Sault Ste. Marie during June showed an increase of 5,683,025 tons or over 70 per cent over June of 1922. Wheat increased 13,050,590 bushels, or 105 per cent.

During June there was a total of 16,909,000 bushels of Canadian grain passed through the canal destined to Canadian ports and 6,944,406 bushels for United States ports. Of this total, 25,854,304 bushels Canadian vessels carried 19,288,657, while United States vessels carried 6,565,647 bushels.

Self-Government Is Success In India

Experiment Has Been Justified, Says Sir Frederick White

Sims, India.—Remarkable success has attended the greater measure of self-government extended to the Indians three years ago according to a statement made by Sir Frederick Whyte, President of the Legislative Assembly of India, speaking at a banquet given in his honor here. The first three years of the Indian Parliament, he said, has proved this.

Pay Strikers For Time Lost
Montreal.—Striking track laborers employed by the Montreal Tramways Company in maintenance and new construction work, who demand increases in wages have gone back to work.

In addition to a five-cent an hour increase they are to receive pay for four and one-half days they were off.

No Slicks Reported
Washington.—No report of a serious slide in the Panama Canal has reached the War Department and officials state that any real obstruction to traffic through the canal would have been reported promptly.

Intensive Campaign For Wheat Pool Planned By Sask. Grain Growers

Beaten By Turkey

Turkey Wins War Against Allies Which She Began in 1914

New York.—Commenting on the Lausanne treaty, the Times says that on the principle that peace is better than war one can be glad that the Lausanne negotiations have ended in the signing of a treaty, but that is about the only occasion for rejoicing.

The treaty writes into history the fact that the great powers were beaten by the Turks because of their own moral and intellectual shortcomings, declares the Times, adding that while the Allies were beaten, the Greeks and Armenians will have to pay the bill. "Nevertheless since the powers entered into a Near East arrangement which really settles nothing, they will have to pay their share in due time," the paper asserts.

The Morning World declares that "fine promises of humanitarian obligations have again yielded to political necessities," and the Turks added have again won a victory for their nationalism, which the Central Powers in a military alliance could not win for their armies.

The World adds: "It is fitting that sales in Constantinople should celebrate the signing at Lausanne and the news that in 1923 Turkey has won a war against the Allies which she began in 1914."

Ban Wheels Of Fortune

Edmonton Mayor Puts Clamps On This Sporting Practice

Edmonton.—No more wheels of fortune will be allowed in the city under any conditions, is the edict sent forth by Mayor Duggan.

Wheels were allowed over the entire class "A" circuit of the fair, and were run here, but the Mayor declares he was not responsible for the edict and the ruling against wheels of fortune being a Government affair, should be taken care of by the Attorney-General's Department. City authorities have stopped local organizations running wheels at their affairs in the past, and state they will do so in the future.

Create New Judicial Districts

Regina.—Two new judicial districts have been created in Saskatchewan, an order-in-council having been passed, Hon. J. A. Cross, Attorney-General, said. These are termed the Maple Creek and Leader districts and will have their centres at those two towns respectively.

Entertain Senators From Canada

Paris.—Premier Poincare entertained at dinner Senator Dandurand, Senator Heaulme and other members of the mission accompanying the Canadian travelling exhibition now touring France.

Speeches Of Poincare Do Not Appeal To Mr. Lloyd George

Bristol, Eng.—Former Premier Lloyd George made a fierce attack on Mr. Poincare, the French Premier, in a speech here. He objected to M.

Regina.—Two hundred and fifty meetings to be held in the short space of two weeks is part of the proposed programme of the Saskatchewan Grain Growers' Association in an intensive campaign to bring before the farmers its plan of a voluntary wheat pool. The meetings are to embrace the whole of the province and it is hoped to commence them in the week commencing August 6, while the last one should be held on or before August 20.

Geo. Edwards, Vice-President of the Association, and A. J. McPhail, Secretary, are those upon whom the task of working out the programme has devolved. A number of speakers will be utilized whose names would be published when the list has been completed.

The organization of the association would be drawn upon very largely to foster the arrangements for the meetings. It was not intended, however, to restrict attendance to the meetings to members of the association; they would be public meetings in the widest sense of that term. The speakers would be prepared with the complete plan of the association by which it was hoped to cope with the crop of this year, and would make a detailed explanation thereof.

The plan for this year, it is believed, will be without the contract clause that it is intended to incorporate in the substantive schemes of the three prairie provinces for 1924. Inasmuch, however, as by all appearances Saskatchewan alone is endeavoring to handle the crop through a pool this year, it is assumed that too large a scheme, or too ambitious one, would fall for lack of time in time to complete organization. Therefore it is likely that the operation of a pool in this province this year will be as extensive as the desire of farmers in general for a pool is translated into willing and immediate support of it.

King's Yacht Arrived

Southam-on-Sea.—The King's yacht Britannia was anchored on Tuesday at Southam near the mouth of the Thames at the completion of the first round of a race. She lies high and dry and her position is regarded as serious. The King was not on board.

Withdraw Troops

Kington, Ont.—The troops are being withdrawn from Sydney, N.S., as a consequence of the settlement of the miners' strike. The Royal Canadian Horse Artillery and drafts from permanent force units left on Tuesday for this city.

Shopmen's Negotiations

Montreal.—Rail shopmen's negotiations with the Railway Association of Canada for a new schedule of wages and working condition will be held here this week. Some 35,000 shopmen employed on the principal railways in Canada are involved.

Poincare's habit of making speeches on Sunday, which he pointed out as a day consecrated to goodwill and hardly a day to "unscure the cylinders of carefully distilled hatred, will, suspicion and anger among the nations."

Attending to past negotiations, Mr. Lloyd George said: "I did not fall out with M. Poincare, but it was very difficult. Mr. Bonar Law also found it quite impossible to work with him."

The former Premier accused M. Poincare of "wickedly distorting his speeches, and expressed the hope that the British efforts toward peace would not be converted into "mere fuel for further devastating and scorching flames, which burn up the peace, progress, progress and happiness of mankind."

Restocking Jasper Lakes

Winnipeg.—Restocking the lakes at Jasper National Park by Dominion park officials "is now under way. 80,000 Atlantic sea trout and 45,000 salmon trout fingerlings were liberated in two lakes on the Canadian National Railway. The sea salmon fry were liberated in Patricia Lake and the salmon trout fingerlings in Pyramid Lake. More work along this line will be carried out within the next few weeks.

One-Third Of The Forests Of The World Within British Empire

Ottawa.—That one-third of the forests of the world were in the British Empire, was the statement made by Lord Lovat, Chairman of the British Empire Forestry Association, at its second convention here. Lord Lovat stated that the timber resources of the Empire were better known now than ever before, but that a great deal had yet to be learned about the annual destruction of forests through consumption, pests and fire. At his suggestion, the papers presented at the convention will be placed in the Dominion archives for future reference.

The party of delegates leave via the Canadian National Railway for a trip through Quebec and the Maritime Provinces. Following this they will proceed on August 12 to Western Canada to inspect lumbering conditions in

British Columbia. The closing session will be held at Victoria on September 7.

Besides Lord Lovat, addresses were given by representatives from nearly every British possession in the world, including the United Kingdom, India, New Zealand, Australia, South Africa, Ireland, West Africa, East Africa, Malay States, Ceylon and British Guiana.

The delegates were the guests at a luncheon, at which Lieut.-Col. L. G. Courthope, M.P., pointed out the needs of better education on forest protection. The two greatest hindrances to the preservation of forests were ignorance and indifference. Having spoken of ignorance in high places, he said he wanted, as far as Canada was concerned, to congratulate it on having a Premier and other public men who are so much interested in the matter of forest resources.

Local and General Items

For funeral flowers phone 212.
Crows' Nest Pass Undertaking Co.

Consider the fish: If he didn't open his mouth he wouldn't get caught.

Mrs. S. H. Kistruck is in town from Opportunity, Washington.

Miss Dorothy Cox, of Pincher Creek, spent last week in town, the guest of Mr. and Mrs. H. C. James.

Mr. and Mrs. D. F. Fleming and children spent last week end at Crow's Nest Lake.

A daughter was born to Mr. and Mrs. Fred A. Crayford on Saturday, July the 21st.

Several week end fishing parties at the North Fork report fishing to be of the best.

The football game here last Saturday evening between Michel and the locals, resulted in a scoreless draw.

Contractor Pozzi was confined to his bed with illness for a few days this week.

One reason that Shakespeare is making such a hit on Broadway is that he doesn't charge any royalties.

Mayor McLeod returned from Calgary last week end, having come through a critical operation successfully.

Mr. and Mrs. W. Bird left last week end for Portland, Oregon, to spend a few weeks vacation. They were accompanied by Mr. W. Swan.

Mrs. Walter Howe, sr., left on Monday's local for Lethbridge and Calgary, where she will spend a few weeks with her daughters, Mrs. Murphy and Mrs. Harmer.

Several young people sprang a surprise party on Mr. and Mrs. Fred Palmer last Thursday evening. A very enjoyable evening was spent in games and singing.

Nanton, Parkland, Claresholm and Stately districts were visited by a severe hailstorm on Saturday afternoon last, which damaged crops to the extent of about 90 per cent.

M. Joyce, C. Thomason and party returned Tuesday evening from an enjoyable auto run over the new Banff-Windermere highway, going by way of Calgary and returning through Cranbrook.

The pulpits of the Blairmore and Coleman Anglican churches were occupied by Revs. Herbert and Harold Clay last Sunday. Rev. Herbert Clay was stationed in this parish a few years ago and his presence was indeed welcomed on this occasion.

Now that prohibition is again a live question before the electorate of Alberta, and a plebiscite is to be taken in the fall on four proposals, the columns of this paper are open to all sides of the controversy at a price that will give us a reasonable remuneration for our labor and space. It will be the policy of this paper to treat all sides alike.

A High River tourist reporter, after completing the Banff-Windermere Highway, that the road through The Pass, particularly between Blairmore and Coleman, was the worst he experienced on the whole trip, and also suggests that the government should take immediate action to repair the same.

The problem of getting efficient referees to handle the different games is a big one. It has not been entirely the fault of the officials in charge, as on several occasions this season he has been "ragged" unmercifully, and sometimes it is small wonder that he has lost control of the game. It is understood the Pass teams are experiencing the same trouble with referees as in Lethbridge, and objections are continually being raised as to this, that man having charge of the whistle—Lethbridge Herald.

Coleman football team defeated the Fernie team last week end by 9 to 1.

The new trial of Abbe Delorme takes place in November.

Health hint—If you catch a cold in the summer take it out in the sun and heat it.

A waste of time—Never argue with a man who talks loud. You couldn't convince him in a thousand years.

E. F. Gare, of the Coleman Journal staff, and family, are enjoying a vacation.

Alex. Reid has severed his connection with the Blairmore Corner Association.

Mrs. H. C. James left yesterday for Pincher Creek, where she will spend a few weeks with friends.

The King George cafe looks very spick and span since being redecorated inside and out.

Mrs. K. K. Goode, of Crows' Nest, has taken over the Bachelor Apartments on Stevens Street, Spokane.

The Ray of Hope Rebekah Lodge at Bellevue are holding a whist drive and dance tomorrow (Friday) night, in the L.O.O.F. hall at Bellevue.

Tenders are being called by the Blairmore School District for the erection of a two-room addition to the central school building.

J. R. Gresham returned last week end from Calgary and Banff, where he spent a week with the 40th Calgary Scottish Battalion.

The new Arrow Line stage running between Cranbrook and Fernie commenced operations this week. We wish them all success in their venture.

Mrs. W. A. Henderson and Mrs. W. W. Scott left here on Wednesday morning on a holiday trip to Vancouver, Victoria and other points west.

Dr. J. S. Hynes, of Prince Edward Island, has enlisted as assistant to Dr. Olivier here. Dr. Hynes is a graduate of McGill University and has had considerable medical practice.

Dr. Hattel, optometrist, of Calgary, is in town today. Dr. Hattel hopes to pay Blairmore regular visits in future. He has already a well established practice at Pincher Creek and some other towns in the south.

Blairmore went down to defeat before the Coleman aggregation last evening in a game that was witnessed by a record crowd of rooters. Blairmore's lineup was minus Pruden and Reddick.

The former kaiser's portrait, which occupied the place of honor on the S. S. Vaterland, now Leviathan, was not turned to the wall, but consigned to the junk shop. Its place is now occupied by Howard Chandler Christy's portrait of President Harding.

A shocking accident occurred at Delburne last week, when Edward Ogden, sixteen years of age, was killed through the accidental discharge of a gun. He was preparing to shoot a hawk and was leaning over the barrel of the gun when the trigger became tripped, the charge entering behind the ear, blowing off the top of the head.

When Hon. Alex. Ross motored to Crows' Nest last week, he almost decided not to return over the same road. However, he picked up courage and with the daring of a lion retraced his car prints through the mud, rocks and what-not, without even a cushion to protect him. Very few persons in this district knew that the honorable gentleman was a visitor and just as few had the luck to meet with him. His views expressed on what he thought of the roads and what he proposed to do with them would not fill a newspaper by any means.

The stork has visited Mr. and Mrs. S. J. Lamey of the Bellevue branch of the Union Bank of Canada.

Some of the very busiest people in the world are only picking up the beans they spilled themselves.

Hillcrest defeated the Michel football team in a league fixture at Hillcrest last evening.

W. L. Evans has purchased a new Chevrolet Sedan from the Crows' Nest Pass Motors.

Several mail fairs throughout the province have been cancelled this year through lack of finances.

Red Deer's annual fair this year was about the most successful one in the history of the town.

Heavy rainfalls and snow caused considerable heavy crops in the southern part of the province to fail.

Seems as though the Alberta farmers' government has been lost in that wheat pool.

When the average man has reached the age of fifty years he has eaten twenty-eight cattle and an acre of potatoes.

A prominent surgeon has said: "I should like to put common sense coats on every woman in this country." You old son-of-a-gun, you!

President Harding is seriously ill of bronchial pneumonia at San Francisco, following his recent visit to Alaska and Canada.

Greenhill Temple No. 10, Pythian Sisters, are holding a whist drive in the L.O.O.F. hall tomorrow (Friday) evening at 8 o'clock.

The Misses Stevens, of Vancouver, have been visiting friends at Cowley and Lundbreck in the course of a holiday tour.

Dr. J. H. Rivers, until recently warden of the Lethbridge jail, is to become agent for the Great West Life in Lethbridge district.

Nanaimo easily won their way through Winnipeg in the Connaught Cup series, and Fort Rouge Rangers proved no great obstacle.

The Brooklyn Rapid Transit subway and elevated lines last year carried 444,747,229 passengers, or practically four times the population of the United States.

John Jackson Young, former owner of the Calgary Daily Herald, and one of the most able and influential of western journalists of his day, died at New Westminster on July 27 at the age of fifty-five years.

Water has at last been extended to the tourist camp, where a sink has been installed through the kindness of Mr. S. Knappman. The camp is also well lighted and is now quite attractive by night as well as day.

Newspapers tell us that Trotsky, together with five other members of the Bolshevik government are now reckoned among the richest men in Russia. We have long suspected that these gentlemen were not in the government business for their health.

Blairmore baseball team defeated Coleman here last Friday evening by a score of 8 to 3. Coleman used three pitchers, while Pruden in the box for the locals, pitched steady ball. On Sunday, Blairmore led the tail enders, Michel, at Michel, by a score of something like 19-12.

Blairmore School District, No. 628

SEALED TENDERS addressed to the Secretary-Treasurer of Blairmore School District No. 628 will be received until 8 p.m. Friday, August the 3rd, 1923, for the erection of a two-room addition to the main school building. Plans and specifications may be had upon application to the Secretary. Lowest or any tender not necessarily accepted.

J. R. GRESHAM, Secretary-Treasurer, Blairmore, Alberta.

WREATHS AND SPRAYS artistically arranged and at prices that are moderate. Phone 222, Scott's. We guarantee satisfaction. —July 26-27.

Here and There

A Jersey cow owned by a Montreal man has broken all Canadian records by producing 1,200 pounds of butter in a year.

The average annual per capita cost from fires in United States is \$2.26, while Canada loses \$2.73 per capita by fire; Spain, \$1.86; France, 97 cents; England, 61 cents; Germany, 28 cents, and the Netherlands, only 11 cents.

Bungalow Camps in the wilds of Ontario have been opened by the Canadian Pacific Railway Company at French River, Nipigon, and near Kenora, Lake of the Woods.

Traffic through the Lachine Canal during the month of June showed an increase of two million tons of grain and one hundred thousand tons of coal with increases in pulpwood, produce and passengers over the same month of the previous year.

The wheat crop of Alberta and Manitoba progressed so well on account of the abundant moisture of the early season that farmers, business men and railroad companies are preparing for a harvest in excess of the record one of 1915.

Prince Rupert, B.C., claims the world's best record for a one trip fish catch. A fishing schooner arrived at this port recently after being at sea 14 1/2 days, with 35,000 pounds of halibut, which sold for a sum that netted each man of the crew of five \$727.60.

In the Province of Ontario, it is estimated, the lumber cut in 1922 amounted to 300,000,000 board feet, and in addition 289,113 cords of pulpwood. The Province of Nova Scotia cut 355,000,000 feet, New Brunswick 210,000,000 feet, and British Columbia 273,146,000 board feet.

The Dominion Express has just effected a shipment from Hsienmu to Kobe, Japan, in 32 days. The average time consumed between the same two points via the St. Lawrence is 49 days, and the saving thus made by the Canadian route will be of great importance in helping make this country the road between Europe and the Orient.

The total value of the pelts of fur-bearing animals taken in the Dominion during the season of 1921-22 was \$7,459,300, an increase over the previous year of \$7,287,273, or 72 per cent, and the number of pelts of all kinds was 4,365,750, an increase over the previous season of 48 per cent. These figures comprise pelts of animals taken by trappers and pelts of ranch-bred animals.

Tests of ceramic clay resources in British Columbia are being planned this summer by the British Columbia Government. The test will be made under the auspices of the Department of Education and the Department of Industries. There are many varieties of clays in British Columbia and some are reported to be particularly adapted to the manufacture of high class pottery ware.

A reduction of express rates on westward moving business between Europe and Canada was announced by the Foreign Department of the Dominion Express Company recently. This reduction on westward shipments follows a similar cut on shipments from Europe to Canada made a little while ago, and amounts to a reduction of approximately twenty per cent. on the trans-ocean trip. The rates came into effect on July 9 between all points in Canada and Europe.

Senator LaFollette said at a dinner in Milwaukee: "The American people are learning to think. They used to remind me sometimes of the sailors from a certain warship who once visited the theatre. The sailors sat in the gallery en masse, and in the course of the play a fight arose among them, and one poor fellow fell from the gallery down into the audience below. The excitement was terrific, of course. "Man overboard." a hoarse cry rang out. "Man overboard!" At these words a second sail or without a moment's hesitation, dived after his unfortunate comrade."

A man appeared in the local court yesterday to answer two charges, one of failing to return to scene of accident after collision with a passing car; the other for operating a car without number plates. Fines were exacted in each case, to which was added court costs.

British Columbia is caring well for her mentally incapacitated. Last week the corner stone was laid for a new mental hospital at Essendale, to cost upwards of \$600,000, to be one of the finest institutions of its kind on the continent.

A RING

that means something is always treasured

Perhaps you have one that some friend gave you or left you or that belonged to your mother. If so, you know what we mean.

Had you thought someone would appreciate in the same way a gift from you.
